Agenda Changes

CLOSED SESSION

Reconvene Into Open Session

STAFF REPORT

To:	Board of Directors	4/NCE 1901
From:	Patrick Treanor, District Engineer	
Date:	September 26 th , 2024	
Subject:	Adopting Revisions to the Uniform Plumbing Ordinance & Penalties Ordinance	c Administrative

RECOMMENDATION

It is recommended that the Board of Directors approve Ordinance No. 2024-02, adopting revisions to the Carmel Area Wastewater District (CAWD) Uniform Plumbing Ordinance, and Ordinance No. 2024-03, adopting revisions to the CAWD Administrative Penalties Ordinance.

DISCUSSION

CAWD staff are recommending revisions to the District's Uniform Plumbing Ordinance in order to clarify requirements for grease interceptors and update the ordinance to be more in line with existing standards contained in the current California Plumbing Code.

In order to establish a process to enforce any violation of the District's Ordinances, the Administrative Penalties Ordinance is being recommended to be revised to incorporate provisions for handling continuing/ongoing violations that exist after the expiration of a correction period contained in a specific compliance order.

Prior to bringing these ordinance revisions to the Board of Directors, CAWD staff conducted outreach to the Carmel Restaurant Association in the form of a presentation. Also, staff sent notices to each restaurant in our District with an invitation to a special information session at the CAWD offices held on September 4th, and an invitation to today's board meeting.

The proposed ordinances revisions were also posted on the CAWD website.

FUNDING

Updating these ordinances requires minimal funding to publish a summary of each ordinance in the local newspaper. Funding exists in the "Legal Notices" line item in the FY 2024-25 Budget.

SECTION 1.0 - DEFINITIONS AND TERMS

1.1 DEFINITIONS AND TERMS

For the purpose of this Ordinance, the following words and abbreviations shall be defined as follows:

ANALYSES - As defined in the latest edition of "Standard Methods for the Examination of Water and Wastewater" published by the American Public Health Association, or EPA Standard Procedures.

APPLICANT - Any Person making application for a Permit for a Sewer or plumbing installation who shall be the property owner or owner's authorized agent of premises to be served by the Sewer for which a Permit is requested.

BOARD - The Board of Directors of Carmel Area Wastewater District.

BUILDING - Any structure used for human habitation or a place of business, recreation or other purposes.

BUILDING LATERAL - The Sewer 1ine beginning two feet from the foundation wall of any Building and terminating at the Main Sewer.

CITY - The City of Carmel-by-the-Sea.

CONTRACTOR OR PLUMBER - An individual, firm, corporation, partnership, or association duly licensed by the State of California to perform the type of work to be done as shown on the approved plans.

COUNTY - The County of Monterey, California.

DISTRICT - Carmel Area Wastewater District (CAWD).

DISTRICT ENGINEER – Principal Engineer of the Carmel Area Wastewater District or his/her authorized representative(s).

DISTRICT STANDARDS - The latest edition of the District's "Sanitary Sewer Standard Plans and Specifications."

DOMESTIC SANITARY SEWER - Water-carried wastes from residences, hotels, motels, restaurants, schools, and business establishments, but excluding all ground water, surface water, Storm Water and Industrial Wastes.

ENGINEER – District (Principal) Engineer of the Carmel Area Wastewater District or his/her authorized representative(s).

FOG - non-petroleum fats, oil and grease

GARBAGE - All solid wastes from the preparation, cooking and dispensing of food and from the handling, storage and sale of produce.

GENERAL MANAGER - General Manager of the Carmel Area Wastewater District or his/her authorized representative(s). The General Manager or his/her authorized representative shall administer and enforce the rules and regulations for the District, unless the Board otherwise designates.

GREASE INTERCEPTOR- A plumbing appurtenance or appliance that is installed in a sanitary drainage system to intercept non-petroleum fats, oil and grease (FOG) from the wastewater discharge.

GREASE TRAP – see Hydromechanical Grease Interceptors.

HYDROMECHANICAL GREASE INTERCEPTORS – A plumbing appurtenance or appliance that is installed in a sanitary drainage system to intercept FOG from a wastewater discharge and is identified by flow rate, and separation and retention efficiency. Hydromechanical Grease Interceptors are generally installed inside.

INDUSTRIAL WASTES - The wastes of producing, manufacturing and processing operations of every kind and nature, not including domestic sanitary Sewage.

INSPECTOR - The individual official(s)authorized by the General Manager and/or District Engineer to administer and enforce the provisions of this Ordinance as adopted or amended.

MAIN SEWER - A Public Sewer lying within a public road/Street or District Sewer easement designed to accommodate one or more Sewer laterals and for which suitable access can be provided for maintenance reasons at the sole discretion of the District. Main Sewers are subject to inspection and approval by the Carmel Area Wastewater District and when accepted by Resolution of the Board, becomes the maintenance responsibility of the Carmel Area Wastewater District.

MULTIPLE DWELLING - A Building or group of Buildings on a Building site which, in whole or in part, is designed for, or occupied by members of two (2) or more living groups dwelling independently of each other in separate areas or units.

OUTSIDE SEWER - A Sanitary Sewer beyond the limits of the District not subject to the control or jurisdiction of the District.

PERMIT - Any written authorization required pursuant to this or any other regulation of District for the installation of any Sewer works.

PERSON - Any human being, individual, firm, company, partnership, association and private or public and municipal corporations, the United States of America, the State of California, districts and all political subdivisions, governmental agencies and mandatories thereof.

PLUMBER OR CONTRACTOR. See Contractor, Section 1.7.

PRIVATE LATERAL – That portion of a Sewer Lateral beginning 2 feet from the perimeter walls at the plumbing outlet of any Building or industrial facility and running to and including the connection to the Main Sewer, or to a private Sewage disposal system. All Sewer laterals are not owned by the District.

PRIVATE SEWER - A common Sewer privately owned that connects one or more Building Sewers to the Public Sewer. A Private Sewer includes Sewer main, manholes and all appurtenances which have not been accepted by Resolution of the District Board.

PUBLIC SEWER - A Sewer lying within a Street or easement and which is controlled by and or under the jurisdiction of the District.

SANITARY SEWER - A Sewer which carries Sewage and to which storm, surface and ground waters are not intentionally admitted.

SEWAGE - A combination of water-carried wastes from residences, business Buildings, institutions and industrial establishments.

SEWAGE TREATMENT PLANT - Any arrangement of devices and structures used for treating Sewage.

SEWER - A pipe or conduit for carrying Sewage.

SEWER LATERAL – A Sewer which connects the plumbing system of a house or Building to the Main Sewer. This is the same as Private Lateral.

SINGLE FAMILY UNIT - Refers to the place of residence for a single living group.

STANDARD SPECIFICATION - Document containing design and construction standards for all Sewer works within the District, as adopted by the Board and subsequent amendments, the District Standards, Standard Specifications for Public Works Construction, latest Edition (Greenbook) by Public Works Standards, Inc and the Uniform Plumbing Code, latest edition. If in conflict, the standards govern in the order stated in this definition with the CAWD Standard Specifications having precedence. STORM DRAIN - A pipeline which carries storm and surface or ground waters and drainage and excludes Sewage.

STORM WATER - The water running off or draining from the surface and subsurface of an area during and after a period of precipitation.

STREET - A public highway, road, Street, avenue, alley, way, public place, public easement or right of way.

UNIFORM PLUMBING CODE - The latest edition of the International Association of Plumbing and Mechanical Officials, Uniform Plumbing Code.

SECTION 2.0 - GENERAL PROVISIONS

2.1 RULES AND REGULATIONS

The following rules and regulations regarding Sewer system construction and disposal of Sewage and connection to the Sewer works of the District are hereby adopted, and all work in respect thereto shall be performed as herein required and not otherwise.

2.2 PURPOSE

This Ordinance is intended to provide rules and regulations for the use and construction of Sanitary Sewer facilities hereafter installed, altered or repaired within the District. This Ordinance shall not apply applies retroactively to existing installations where the existing installation did not conform to the ordinance in effect at time of installation., and in the event of an alteration or repair hereafter made, it shall apply only to the new materials and methods used therein.

2.3 SHORT TITLE

This Ordinance shall be known as the Uniform Plumbing Ordinance of the Carmel Area Wastewater District.

2.4 VIOLATION UNLAWFUL

It shall be unlawful for any Person to connect to, construct, install or provide, maintain and use any other means of Sewage disposal from any Building in said District except by connection to a Public Sewer in the manner as provided in this Ordinance.

2.5 RELIEF ON APPLICATION AND WAIVERS

When any Person, by reason of special circumstances, is of the opinion that any provision of this Ordinance is unjust or inequitable as applied to his/her premises, he/she may make written application to the Board, stating the special circumstances, citing the provision complained of, and requesting suspension or modification of that provision as applied to his/her premises.

Action to approve such request may be subject to such conditions as the Board deems appropriate, including a condition that a real property owner who requests relief under this section shall enter into and execute an agreement incorporating such conditions, in a form acceptable to District Legal Counsel, to include, without limitation, a provision to indemnify, defend and hold harmless the District, its Board, employees and agents, from any claims, actions, damages or losses resulting in any manner from such waiver, suspension or modification, which agreement shall be recorded and shall be binding upon the property owner's successors and assigns.

The Board at its discretion may, but only to the extent compatible with State and Federal

laws, rules and regulations pertaining to wastewater facilities. constructed in part with grant funds, by resolution, waive, suspend, or modify any requirement or provision of this Ordinance.

2.6 PERMITS AND FEES

No Public Sewer, Building Lateral, <u>Drainage Plumbing in commercial or restaurant</u> <u>kitchens (or other nondomestic facility discharging grease or other harmful constituents</u> <u>to the sewer system)</u>, or other Sewer facility shall be installed, altered, or repaired, within the District until a Permit for the work has been obtained from the District and all fees paid in accordance with the requirements of the ordinances, rules and regulations of District.

2.7 PLUMBING AND SEWERS ON PRIVATE PROPERTY

The following plumbing on Private Property is subject to compliance with District ordinances, rules, and regulations:

- Building Sewer Laterals from the outer footprint of the building to the main sewer line.
- Drainage fixture plumbing from commercial or restaurant kitchen drainage fixtures or other drainage fixtures from nondomestic facilities discharging grease or other harmful constituents to the sewer system.

The District Engineer or their designee is the Authority Having Jurisdiction over grease laden wastewater being discharged into District sewers, and in accordance with California Health & Safety Code Section 6543 the powers and duties conferred upon the Authority Having Jurisdiction of cities shall be exercised by the District's designated Authority Having Jurisdiction.

The installation, use, maintenance, repair and inspection of all plumbing within Buildings shall be subject to compliance with the plumbing regulations of the City and County, now existing or as hereafter amended.

2.8 QUALIFICATIONS AND DUTIES OF PLUMBERS

Every Plumber operating, conducting and carrying on a trade or business, or performing plumbing work in the District must be actively licensed in the C-36 (Plumbing) specialty therefor issued by the Contractors State License Board of the State of California. It shall not be lawful for any Person to carry on, conduct or operate in the trade or business of plumbing in the District unless he/she is a Plumber licensed as herein provided, and has filed a copy of insurance carried as set forth in Section 2.09.

2.9 INSURANCE

Plumbers doing work permitted by the District shall obtain and maintain workers' compensation insurance as required by California law, and general and automobile liability insurance, no less than one million dollars (\$1,000,000). Neither this section, nor any other section of this Code, nor any predecessor section is or was intended to create or impose any responsibility upon CAWD to ensure that the Contractor obtains and maintains this insurance, such responsibility being solely that of the Contractor. CAWD may, however, investigate a Contractor's insurance coverage at any time. Failure of a Contractor to obtain and maintain required insurance may cause the denial, suspension and/or revocation of Permits, at the sole discretion of CAWD.

The Plumber shall carry general liability and property damage insurance with limits approved by the District Counsel but in no case less than one million (\$1,000,000) dollars, naming as additional assured the Carmel Area Wastewater District, its officers, employees, and agents; and in addition, a warranty holding harmless the District, its officers, employees and agents from any liability occurring or alleged to be caused by the construction operations.

Certificates issued by the insurance carrier shall be submitted to the District with the Plumber's application for a Permit, unless such certificate has been filed previously with the District. The required insurance certificates shall show that the insurance policies are for the proper amounts, are in force for the duration of the work, and bear an endorsement or statement waiving right of cancellation or reduction in coverage without ten days written notice to be delivered by registered mail to the District.

2.10 LIABILITY

The District and its officers, agents and employees shall not be answerable for any liability or injury or death to any Person or damage to any property arising during or growing out of the performance of any work by an Applicant. The Applicant shall be answerable for, and shall save the District and its officers, agents and employees harmless from any liability imposed by law upon the District or its officers, agents, or employees, including all costs, expenses, fees and interest incurred in defending same or in seeking to enforce this provision. Applicant shall be solely liable for any defects' in the performance of his/her work or any failure which may develop therein.

2.11 RESPONSIBILITY FOR DEFECTS AND GUARANTEE OF THE WORK PERFORMED

Property owners shall be held responsible for any and all acts of agents or employees performed under this Ordinance by virtue of his/her or their Permit. Upon being notified

by the Inspector of any defect arising therefrom in the work performed or of any violation of this Ordinance, the Person or Persons having charge of said work shall immediately correct the same.

The property owner shall warrant and guarantee to the District to correct any defects in a Building lateral or public Sewer for a period of one year after completion.

2.12 SAFETY REQUIREMENTS

The Owner or Plumber doing the work shall be solely and completely responsible for. condition of the job site, including safety of all Persons and property during performance of the work. This requirement shall apply continuously and not be limited to normal working hours.

The services of the District in conducting construction review of the Owner's or Plumber's performance is not intended to include review of the adequacy of the Owner's or Plumber's work methods, equipment, bracing or scaffolding, or safety measures in, on, or near the construction site. All work and materials used shall be in accordance with all applicable City, County, State and Federal rules, regulations and codes.

SECTION 3.0 - USE OF SEWERS REQUIRED

3.1 DISPOSAL OF WASTES

It shall be unlawful for any Person to place, deposit, or Permit to be deposited upon public or private property within the District, or in any area under the jurisdiction of said District, any Sewage, Garbage, or other objectionable waste.

3.2 TREATMENT OF WASTES REQUIRED

It shall be unlawful to discharge to any stream or watercourse any Sewage, Industrial Wastes, or other polluted waters, except where suitable treatment has been provided in accordance with provisions of this Ordinance and other applicable District Ordinances.

3.3 UNLAWFUL DISPOSAL

(a) Except as herein provided, it shall be unlawful to construct or maintain any privy, privy vault, septic tank, cesspool, seepage pit or other facility intended or used for the disposal of Sewage.

(b) No rain, surface or subsurface water shall be connected to or discharged into any Sanitary Sewer system.

(c) No commercial food waste grinder shall be connected to a private Sewage disposal system unless permission has first been obtained from the General Manager.

(d) No Industrial Wastes or high strength wastes shall be discharged into any Sanitary Sewer system except in special cases that are discretionary based on the review of the proposed waste stream by the District Engineer and Plant Superintendent; and such waste stream will be subject to a custom fee computation.

(e) An approved watertight Sewage or wastewater holding tank, the contents of which, due to their character, must be periodically removed and disposed of at some approved off-site location, shall be installed only when required and approved by the City or County Health Officer to prevent anticipated surface or subsurface contamination or pollution damage to the Public Sewer, or other hazardous or nuisance condition.

3.4 COMPLIANCE PRIOR TO OCCUPANCY

No Building, industrial facility, or other structure shall be occupied until the property owner of the premises has complied with all rules and regulations of District and/or applicable regulations of the City and County.

3.5 SEWER REQUIRED

(a) The owner of any Building situated within the District in which plumbing fixtures are installed is required at his/her expense to connect said building directly with the

proper public Sewer in accordance with the provisions of this Ordinance, within ninety (90) days after date of District notice to do so.

(b) Septic tanks installed and in place on or before adoption date in the District may continue in use as long as they are functioning properly.

(c) Cesspools must not be used in the District for disposal of Sewage.

(d) On every lot or premises hereafter connected to Public Sewer, all plumbing systems or parts thereof, shall be connected with such Public Sewer.

3.6 SEPARATION OF SANITARY SEWERS AND WATER MAINS

This Section is intended to be in conformance with Title 22 of the California Administrative Code, Chapter 16, SECTION 4, Section 64572. Water mains and Sewers shall not be installed in the same trench and shall be separated as required by the State with Sanitary Sewers always located lower than water mains.

(a) Parallel Construction: The horizontal distance between pressure water mains and Sanitary Sewers shall be at least ten (10) feet measured from the nearest outside edge of each pipe barrel. The horizontal distance between water service connections and Building Laterals shall be as specified in the Uniform Plumbing Code.

(b) Perpendicular Construction (crossing): The bottom of pressure water mains shall be no less than 45-degrees to and at least one (1) foot above the top of Sanitary Sewers where these lines must cross.

(c) Certain local conditions, including but not limited to topography and available space, may create a situation where there is no alternative but to install water mains or Sewer lines at less than the required separation. In such cases, rigid construction requirements subject to special provisions must be met. These special provisions will be in accordance with the latest State Board requirements.

SECTION 4.0 - PRIVATE SEWAGE DISPOSAL AND PRETREATMENT FACILITIES

4.1 ABANDONMENT OF FACILITIES

At such time as a Public Sewer becomes available to a property served by a private Sewage disposal system, except as otherwise provided in Section 3.05, a direct connection shall be made to the Public Sewer in compliance with the ordinances, rules and regulations of District. Exceptions to this Section shall be requested in writing to the Board and shall be approved by the Board and are subject to approval by the Board.

(a) Every abandoned Building Lateral or part thereof, shall be in an approved manner not more than five (5) feet inside the property line.

(b) Every cesspool, septic tank and seepage pit which has been abandoned or has been otherwise discontinued from further use shall have the Sewage removed therefrom and be completely filled with earth, sand, gravel, concrete or other material approved by the County or City.

(c) The top cover or arch over the cesspool, septic tank or seepage pit shall be removed before filling and the filling shall not extend above the top of the vertical portions of the sidewalls or above the level of any outlet pipe until inspection has been called and the cesspool, septic tank or seepage pit has been inspected. After such inspection, the cesspool, septic tank or seepage pit shall be filled to the level of the top of the ground.

4.2 COST OF MAINTENANCE BY OWNER

The property owner shall operate and maintain existing private Sewage disposal and pretreatment facilities in a sanitary manner at all times, at no expense to the District.

4.3 GREASE , OIL AND SAND INTERCEPTORS

(a) All nondomestic users shall be required to install and maintain a grease, oil, and sandgrease interceptor as specified in this section or when the General Manager and/or, District Engineer or their designee finds that it is necessary for the proper handling of liquid waste containing grease, flammable wastes, and sand or any other harmful constituents (such as sand or flammable wastes) that may be properly eliminated from the Sewage system by use of an interceptor or trap.

If required, an <u>An</u> approved type interceptor complying with the provisions of this Section and the District's Pretreatment Ordinance, shall be installed in the waste line leading from <u>nondomestic kitchen</u> sinks, <u>floor</u> drains, and other <u>kitchen drainage</u> fixtures or <u>equipment</u> in the following establishments: restaurants, cafes, lunch counters, cafeterias, bars and clubs; hotel<u>s</u>, hospital<u>s</u>, sanitarium<u>s</u>, factory <u>kitchens</u>, or <u>school</u> kitchens, or <u>other communal use kitchens</u>.or <u>o If determined necessary by the General</u> Manager or District Engineer, interceptors may also be required in other nondomestic establishments where grease, oil or sand or other harmful constituents (such as sand or flammable wastes) may be introduced into the Sewage system in quantities that can effect line stoppage or hinder Sewage treatment or private Sewage disposal.

All plumbing, traps, and interceptors handling grease laden wastewater shall conform to the requirements of the most recent edition of the California Plumbing Code except where this Ordinance contains a higher standard than required in the California Plumbing Code. No provisions of this section should be applied as to conflict with existing City or County ordinance, regulation, or code governing plumbing in buildings.

(b) Plans shall be submitted, and approval obtained from the General Manager and/or District Engineer prior to the installation of any waste pretreatment facilitiesgrease <u>interceptors or traps</u> in any food establishment set forth in subsection (a) of this Section.

(c) Each <u>Gravity</u> Grease Interceptor required by this Section shall have an approved volume not less than that given in Table IV-1. <u>Hydromechanical Grease Interceptors</u> <u>shall have an approved volume not less than that provided by calculation in Table IV-2.</u>

(d) All drains from kitchen areas includin<u>g but not limited to: floor drains, floor sinks</u>, pre-wash<u>sinks</u>, <u>dishwashing sinks</u>, food waste disposal units, dishwasher<u>s</u>, and **g**Carbage can wash shall be connected to the Grease Interceptor. Toilets, lavatories and other sanitary fixtures shall not be connected to any Grease Interceptor. <u>No drains</u> <u>located outdoors shall be connected to the sewer system to comply with Section 3.3 of this ordinance</u>.

(e) All fixtures discharging into a Grease Interceptor shall be individually trapped and vented in an approved manneraccordance with the California Plumbing Code. Hydromechanical Grease Interceptors shall be equipped with a flow control device and venting in accordance with the California Plumbing Code. Grease Interceptors and associated plumbing shall be installed in accordance with Grease Interceptor manufacturer's recommendations.

(f) Each Grease Interceptor shall be so installed and connected that it shall be at all times easily accessible for inspection, cleaning and removal of the intercepted grease.

(g) Interceptors shall be maintained in efficient operating condition by periodic removal of the accumulated grease. No such collected grease shall be introduced into any drainage piping, public or private.

(h) Each Grease Interceptor shall be constructed of durable materials satisfactory to the

General Manager and/or District Engineer and shall have a full-size gas tight cover which can easily and readily be removed.

(i) <u>Any commercial kitchen or food or restaurant establishment that does not have</u> <u>Grease Interceptors installed in accordance with this Section 4.3, and the California</u> <u>Plumbing Code, is in violation of the District's Rules and Regulations.</u> <u>Types and</u> <u>models of grease interceptors other than those required by this section may be permitted.</u> <u>However, the General Manager and/or District Engineer may require tests necessary to</u> <u>determine the grease collecting efficiency of the various types and kinds of grease</u> <u>interceptors in order to establish the rate of flow or other rating thereof. Such test</u> <u>requirements may be revised or modified from time to time as deemed necessary.</u>

(j) Grease Interceptors required by this Ordinance shall not be installed until the type and/or model has been subjected to, and has fully complied with, tests acceptable to the General Manager and/or District Engineer. Where existing conditions are found acceptable as determined by the General Manager and/or District Engineer, such facilities as presently exist will be allowed to remain in use. Whenever it shall come to the attention of the District that any grease interceptor is no longer acceptable or does not comply with the provisions of this Section, the General Manager and/or District Engineer shall immediately suspend or revoke such approval and require corrective measure.

TABLE IV-1

<u>Gravity</u> Grease Interceptors <u>Sizing</u> (Per 2022 California Plumbing Code)

Drainage Fixture Units (DFU)	Interceptor Volume (gallons)
<u>8</u>	<u>500</u>
<u>21</u>	<u>750</u>
<u>35</u>	<u>1000</u>
<u>90</u>	<u>1250</u>
<u>172</u>	<u>1500</u>

<u>216</u>	<u>2000</u>	
Food Service Operations		
Seating Capacity	Volume in Gallons	
10 to 35	500	
36 to 60	750	
61 to 80	1000	
81 to 110	1250	
111 to 135	1500	

For seating capacities above 135, use the following formula: Seating Capacity x 11.25 = interceptor size in gallons

Note: Hospital-type and residential care operations shall use the above formula, substituting number of beds for seating capacity.

TABLE IV-2

Hydromechanical Grease Interceptor Sizing Using Fixture Capacity

Step 1: Determine the maximum flow rate from each fixture:

- For Sinks: [inches Length] x [inches Width] x [inches Depth] / 231 x 0.75 fill factor / <u>1 minute drain time = Gallons Per Minute</u>
- The flow rate from Non-Sink Drain Fixtures (such as floor drains) shall be determined based on gravity flow rate through fixture drain pipe diameter flowing half full (calculated using Mannings Equation) divided by 2.5.

Step 2: Calculate the total flow rate from fixtures that discharge into the interceptor. Grease Interceptor gallons per minute rating shall be equal to or greater than the total load.

<u>Fixtures</u>	Compartments/ Qty	<u>Flow Rate (gallons per</u> <u>minute)</u>
24 inches x 24 inches x	<u>2</u>	<u>44.9</u>

<u>12 inches</u>		
<u>2" Floor Drain</u>	<u>1</u>	<u>4</u>
Rated Appliance	<u>1</u>	<u>5</u>
Total		54 gpm Grease Interceptor

Note: GPM = Gallons Per Minute

<u>Step 3: Confirm Grease Interceptor Sizing with manufacturer's suggested sizing</u> <u>criteria. In the event of a conflict between manufacturer's suggested sizing and</u> <u>calculation in Step 2, choose the larger size.</u>

4.4 ADDITIONAL REQUIREMENTS

No statement contained in this Section shall be construed to interfere with any additional requirements that may be imposed by any law, ordinance, rule or regulation of the District or of the Health Department of the State or of the City or County.

SECTION 5.0 - BUILDING LATERAL AND CONNECTIONS

5.1 PERMIT REQUIRED

In accordance with Section 8 of this Ordinance, no Person shall construct a Building Lateral, or make a connection with any Public Sewer without first obtaining a written Permit from the District and paying all fees and connection charges as established.

5.2 DESIGN AND CONSTRUCTION REQUIREMENTS

Design and construction of Building Laterals shall be in accordance with this Ordinance and District Standards. All new Building Sewers shall have a minimum slope of 1/4- inch per foot and a maximum slope of 3 inches per foot unless specifically permitted by the District. Public Sewers which are laid in public easements, roadways, or provide Sewer service for two or more Building sites of record shall be six inches or greater in diameter.

5.3 SEPARATE SEWERS

Every Building fronting on the same Street or easement requiring Sewer service shall be separately and independently connected with the Public Sewer; provided, however that where two or more Buildings are on the same parcel, belonging to one owner, and which cannot legally be subdivided, separate connections need not be made with the Public Sewer. No two separate owners of adjacent parcels shall be permitted to join in the use of the same Sewer lateral.

Single family residential units with common walls, condominiums, townhouse, stock cooperative, community apartment or other similar improvements, including commercial condominiums or similar units, which entitles owners of interests therein to occupy independent ownership interests and to make joint use of utility and other services, which may be provided by facilities owned in common, may, upon issuance of a Permit authorizing such common use by the District Engineer or assignee, be permitted to maintain a common Sewer lateral or Sewers. Indemnification language approved by the District shall be included in the covenants, conditions and restrictions.

5.4 USE OF EXISTING LATERAL SEWERS

(a) Property owners shall inspect and provide to the District a report of the results of the inspection of the laterals on their property prepared by a licensed Plumber using closed circuit television (CCTV) inspection or other inspection or test method approved by the District Engineer, and if found defective, the property owner shall obtain a lateral repair Permit and thereafter repair the lateral, as follows:

(1) When Building a new structure on property with an existing lateral, or when otherwise proposing to connect a previously unconnected structure to an existing lateral;

(2) As a condition of approval of any major Building remodel project. A major Building remodel project is one that is estimated to cost \$50,000 or more;

(3) Prior to the close of escrow when the property is transferred via sale or other transfer of ownership by deed, instrument or writing;

(4) Whenever the District finds that a Sewage overflow emanating from a lateral has encroached upon public property, including but not limited to a Street or the Storm Drain system, or has flowed onto private property owned by another property owner;

(5) Whenever the District finds that a Sewage overflow emanating from a lateral presents a threat to public health, even if it has not flowed across a property line.

In the absence of a specific deadline, all inspection and testing work shall be completed within 60 days of notification by the District that such inspection is required. Existing laterals shall not be used if they are found to be defective by the inspection or if they fail District mandated tests or if they were constructed of materials deemed unacceptable by the District Engineer.

(6) When as part of its periodic construction and maintenance of Sewer mains, the District discovers defective laterals, the District may order the property owner to conduct an inspection, repair or replacement of any lateral that the District knows or reasonably suspects to be defective.

(b). A lateral shall be considered defective if it has any of the following conditions: tap connections to the sewer main, displaced joints, root intrusion, substantial deterioration of the lines, damaged clean-out, defective clean-out, inflow, infiltration of extraneous water, or other conditions likely to substantially increase the chance for a lateral blockage, or if, within a period of one year, a lateral suffers two or more blockages resulting in overflows. Factory wye connection made of the same material as the Main Sewer is required.

(c) Whenever defective laterals are found, the property owner, at the sole expense of the property owner, shall repair or replace the lateral. The District Engineer shall determine the extent of repair required, and more limited repair than complete replacement of the lateral may be permitted at the sole discretion of the District Engineer. The following requirements shall be met.

(1) A replaced or repaired lateral shall not be covered or backfilled until it has been inspected by a representative of the District.

(2) All repaired or replaced laterals shall be brought into compliance with District requirements. Overflow devices must be installed on all repaired or replaced laterals, and backflow valves are required to be installed on laterals.

(d). In the absence of a specific deadline established by the District, all repair or replacement work shall be completed within 60 days of notification by the District that such repair or replacement is required.

(e). When a lateral is completely replaced in accord with a valid lateral replacement Permit, the property owner is not required to inspect the lateral upon sale of the property for 10 years following the date of complete replacement of the lateral.

(f). Roots, grease, or other material which have accumulated in a lateral cleaned or maintained shall be prevented from entering the Sewer main during the maintenance or repair of the lateral. In the event that material is permitted to enter the main causing or contributing to the cause of a Sewage spill, the property owner and/or Contractor performing such maintenance work, in addition to any criminal penalties imposed, shall be subject to civil liability for any fines or other expense incurred by the District resulting from the spill.

5.5 CLEANOUTS, SEWER RELIEF VALVES & BACKWATER PREVENTERS(a) Every Building Lateral shall have a cleanout, Sewer relief valve and backwater preventer. A cleanout with Sewer relief valve and a backwater preventer shall be installed in the Building lateral between the Building and the public Sewer, and shall be installed on the Owner's property and at a location in the Building lateral where the Sewage will flow to the public Sewer by gravity.

(b) Building lateral cleanouts shall be installed at intervals not to exceed one hundred feet (100') of straight runs.

(c) Every change in alignment or grade in excess of ninety (90) degrees in a Building Lateral shall be served by a cleanout. All required Building Lateral cleanouts shall be extended to grade. When Building Laterals are located under Buildings, the cleanout requirements of the Uniform Plumbing Code shall apply.

(d) Each cleanout shall be installed so that it opens in a direction opposite to the flow of the waste or at right angles thereto, and except in the case of "wye" branch and end-of-line cleanouts, vertically above the flow of the pipe.

(e) Cleanouts shall be made accessible by yard boxes with removable covers when located in walkways or driveways. The cover may be cast iron or concrete with the ability to vent and the cover shall have permanent lettering cast into its surface as follows: "CO" or "CLEANOUT" or "SEWER". The entire assembly shall have adequate strength to resist applied loads.

5.6 SEWER TOO LOW

In any situation where the lateral is too low to Permit gravity flow to the public Sewer, sanitary Sewage shall be lifted by artificial means (such as a sewage ejector pump system or lift station) approved by the General Manager and/or District Engineer and discharged to the public Sewer at the expense of the property owner.

5.7 CONNECTION TO PUBLIC SEWER- WYE INSTALLATIONS

(a) Any Person desiring to have a Building Lateral installed, repaired, replaced, relocated or removed, shall make application to the District for a Permit to allow the work done. All work shall be completed as required in the District's Standard Specifications and Details.

(b) The Plumber installing the Building Lateral shall be responsible for traffic control and public safety during the operation of installing the wye connection, and shall be responsible for complete excavating, shoring, if required, backfilling and repaving as required by the public agency at the location of the proposed wye connection.

(c) A11 connections to the Public Sewer shall be made with a preformed wye of the same material as the Main Sewer.

5.8 MAINTENANCE OF BUILDING LATERALS

Building laterals shall be maintained by the Owner of the property served. When repairing or constructing a lateral, the Plumber shall report to the District whenever he/she discovers any stoppage observed in the Main Sewers. The District will remove said stoppage.

5.9 ALL COSTS PAID BY OWNER

All costs and expenses incident to the installation and connection for which a Permit has been issued shall be borne by the Owner. The Owner shall indemnify the District from any loss or damage that may directly or indirectly be occasioned by the work.

5.10 INSPECTION

(a) All Sewer construction work shall be inspected by the District. No Sewer shall be covered at any point until it has been inspected and passed for acceptance. No Sewer

shall be connected to the District's Public Sewer until the work covered by the Permit has been completed, inspected, tested and approved by the Inspector.

(b) The Person doing the work authorized by the Permit shall notify the office of the District that said work is ready for inspection. Such notification shall be given not less than forty-eight (48) hours, prior to the start of any Sewer construction during normal District working hours and a request must be made by contacting the Collections Superintendent or assigned Inspector as indicated on the District Permit. Messages or voicemails are not acceptable. This notification applies not only to starting new work, but also to restarting work which has been temporarily halted. No inspections shall be conducted outside of District working hours.

(c) When completed work does not comply with this Ordinance, a notice to that effect shall be given instructing the Owner of the premises, or the agent of such Owner, to repair the Sewer or other work authorized by the Permit in accordance with the ordinances, rules and regulations of the District.

SECTION 6.0 - PUBLIC SEWER CONSTRUCTION

6.1 PERMIT REQUIRED

In accordance with SECTION 8 of this Ordinance, no Person shall construct, extend or connect to any Public Sewer without first obtaining a written Permit from the District and paying all fees and connection charges and furnishing bonds as required in this Ordinance. The provision of this Section requiring Permits shall not be construed to apply to Contractors constructing Sewers and appurtenances under contracts awarded and entered into by the District.

6.2 DESIGN AND CONSTRUCTION STANDARDS

Minimum standards for the design and construction of Sewers within the District shall be in accordance with the latest edition of the Sanitary Sewer Standard Specifications and Details adopted by the Board. Copies are on file at the District Office and on the District website. General Manager and/or District Engineer, with the consent of the Board, may Permit modifications or may require higher standards where unusual conditions are encountered.

6.3 PERSONS AUTHORIZED TO PERFORM WORK

Only properly licensed Contractors shall be authorized to perform the work of Public Sewer construction within the District. All terms and conditions of the Permit issued by the District to the Applicant shall be binding on the Contractor. The requirements of this Section shall apply to side Sewers installed concurrently with Public Sewer construction.

6.4 COMPLIANCE WITH LOCAL REGULATIONS

Any Person constructing a Sewer within a Street shall comply with all state, County, or City laws, Ordinances, codes, rules and regulations pertaining to the cutting of pavement, opening, barricading, lighting and protecting of trenches, backfilling and repaving thereof and shall obtain all Permits and pay all fees required by the department having jurisdiction prior to the issuance of a Permit by the District.

6.5 COMPLETION OF SEWER WORKS REQUIRED

Before acceptance of any Sewer works by the District and prior to the admission of any Sewage into the system, the Sewer works shall be tested and shall be complete in full compliance with all requirements of the District Standards and to the satisfaction of the General Manager and/or District Engineer.

6.6 SPECIAL REIMBURSEMENT AGREEMENT

Where special conditions exist, in the opinion of the District, they shall be the subject of a special contract between the District and the Person making the Public Sewer main extension.

6.7 PUBLIC SEWER EASEMENTS

A Main Sewer authorized by the Engineer to be constructed on private property will require that an Easement be granted to the District. Sanitary Sewer easements dedicated to the District shall be a minimum of twenty feet wide unless otherwise specifically permitted by the District. Easements shall be located along property lines and shall be entirely on one side of the property line except as specifically permitted by the District. Easements shall be prepared and submitted as required in the most recent District Standard Specifications.

No structures may encroach on, above or below the surface of the ground in any public Sanitary Sewer easement. This includes footing of foundations or eaves from the roof of any adjacent structure, pools, ponds, or out-buildings on slabs or foundations. Decks, sheds, or other structures that may be easily removed for maintenance of the Sanitary Sewer system may be allowed at the discretion of the District and shall be removed at the Owner's expense when notified in writing by the District.

No trees may be planted in a public Sanitary Sewer easement without first obtaining approval of the District. Trees may be allowed only if District determines that damage to the Sanitary Sewer will not occur from root intrusion and adequate access can be provided for maintenance and repair vehicles. Any repair work by the District requiring the removal of trees or other vegetation planted by the Owner or by prior property Owners shall be at the expense of the present Owner.

All required easements and other legal documents shall be subject to approval by District counsel.

SECTION 7.0 - MATERIALS

7.1 MINIMUM STANDARDS

(a) Unless otherwise provided for in this Ordinance, all materials, fixtures or devices used or entering into the construction of Sewer systems or parts thereof, shall be submitted to the District for approval and shall conform to approved applicable standards or to other equivalent standards acceptable to the District, and shall be free of defects. All pipe, pipe fittings and fixtures shall be listed or labeled by a listing agency or shall be approved by the District when listing or labeling by a listing agency is not available.

(b) Each length of pipe and each pipe fitting, trap, material and device used in a plumbing system shall have cast, stamped, or indelibly marked on it the maker's mark or name, the weight and the quality of the product, when such marking is required by the approved standard that applies. All materials and devices used or entering into the construction of Sewer systems or parts thereof shall be marked and identified in a manner satisfactory.to the District.

(c) Standards listed or referenced to in this Section cover materials which will conform to the requirements of this Ordinance, when used in accordance with the limitations imposed in this or other sections thereof and their listing. Where a standard covers material of various grades, weights, quality, or configurations, there may be only a portion of the listed standard which is applicable, as determined by the District.

(d) The provisions of this Ordinance are not intended to prevent the use of any alternate material or method of construction provided any such alternate has first been approved and its use authorized by the General Manager.

(e) The General Manager and/or District Engineer may approve any such alternate provided he/she finds that the proposed design is satisfactory and complies with the intent of this Ordinance and the material offered is for the purpose intended, at least the equivalent of that prescribed in this Ordinance, in quality, strength, effectiveness, durability and safety or that the methods of installation proposed conform to other acceptable nation ally recognized plumbing standards.

(f) The General Manager shall require that sufficient evidence or proof be submitted to substantiate any claims that may be made regarding the sufficiency of any proposed material or type of construction.

(g) Where there is insufficient evidence to substantiate claims for alternates, the General Manager and/or District Engineer may require tests, as proof of compliance, to be made by an approved testing agency at the expense of the Applicant.

(h) Tests shall be made in accordance with approved standards, but in the absence of such standards, the General Manager shall specify the test procedure.

(i) The General Manager may require tests to be made or repeated if, at any time, there is reason to believe that any material or device no longer conforms to the requirements on which its approval was based.

7.2 SIDE SEWER MATERIALS

A side Sewer beginning two (2) feet from any Building or structure shall be of one the following materials:

(a) VITRIFIED CLAY PIPE- Pipe shall be extra-strength unglazed conforming to ANSI/ASTM Designation C-700 (latest revision). The joints shall conform to ANSI/ASTM Designation C-425 (latest revision). Band- seal type Sewer repair coupling with outside stainless-steel shear ring maybe used.

(b) POLYVINYL CHLORIDE (PVC) GRAVITY SEWER PIPE- Pipe and. fittings shall be manufactured in accordance with ASTM Type PSM Designation D-3034 (latest revision), SDR 35; all pipe and fittings shall have rubber ring bell and spigot joints.

(c) POLYVINYL CHLORIDE (PVC) PRESSURE TYPE SEWER PIPE - Pipe and fittings shall be manufactured in accordance with ASTM Type PSP Designation D- 3033 (latest revision).

(d) Acrylonitrile-Butadiene Styrene - (ABS)Pipe. Pipe and fittings shall be manufactured in accordance with ASTM Type D-2661 (latest revision). Pipe and fittings shall be welded together in accordance with the manufacturers' recommendations using a solvent designed solely for use with ABS pipe.

7.3 CLEANOUTS

Cleanouts shall be as shown in the District's Standards for Private Laterals. Cleanout units shall only be installed after the Building construction has been completed and in the presence of an Inspector.

ABS pipe and fittings may be used with the following exceptions:

(1) If cast iron is required in heavy load or traffic areas as determined by the General Manager and/or District Engineer.

7.4 BACK WATER PREVENTER VALVES

Back water preventer valves shall be as shown in the District's Standards and shall be so constructed as to insure a positive mechanical seal and to remain closed, except when discharging wastes. Such valves shall remain sufficiently open during periods of low flows to avoid screening of solids and shall not restrict capacities or cause excessive turbulence during peak loads.

SECTION 8.0 - PERMITS, FEES AND INSPECTION CHARGES

8.1 PERMIT REQUIRED - Laterals

(a) It shall be unlawful for any Person to install, remove, alter, repair or replace, or cause to be installed, removed, altered, repaired or replaced, any Building Lateral without first obtaining a Permit to do such work from the District.

(b) A separate Permit shall be obtained for each Building or structure.

(c) No Person shall allow any other Person to do or cause to be done any work under a Permit secured by a Permittee except Persons in his/her employ.

(d) A Permit shall be valid for sixty calendar days after the date of issuance by the District. Upon expiration of a Permit, no further work defined under such Permit shall be allowed until the Permit is renewed or a new Permit is obtained.

8.2 WORK NOT REQUIRING A PERMIT

A Permit is not required for the following repair work: The repair of leaks in drains, soil, waste or vent pipe, and clearing of stoppages; provided, however, that should any trap, drainpipe, soil, waste or vent pipe be or become defective and it becomes necessary to remove and replace any part or parts, the same shall be considered as new work and a Permit shall be required and inspection made as herein provided.

8.3 APPLICATION FOR A PERMIT

Any Person legally entitled to apply for and receive a Permit shall make application on the form provided by the District. He shall give a description of the character of the work proposed to be done and the location, ownership, occupancy and use of the premises in connection therewith. The General Manager and/or District Engineer may require plans, specifications or drawings and such other information as he/she may deem necessary.

If the General Manager and/or District Engineer determines that the plans, specifications, drawings, descriptions or information furnished by the Applicant is in compliance with the ordinances, rules and regulations of the District, the Permit applied for shall be issued upon payment of the required fees.

8.4 COST OF PERMIT

The Applicant shall pay for each Permit at the time of issuance.

Any Person who shall commence any work for which a Permit is required by this Ordinance without first having obtained a Permit therefor shall, if subsequently permitted to obtain a Permit, pay double the Permit fee plus \$100 for such work, provided, however, that this provision shall not apply to emergency work when it shall be proved to the satisfaction of the General Manager and/or District Engineer that such work was urgently necessary and that it was not practical to obtain a Permit therefore before the commencement of the work. In all such cases, a Permit must be obtained as soon as it is practical to do so and if there be an unreasonable delay in obtaining such Permit, a fine as described in SECTION 11 of this Ordinance shall be charged.

8.5 COMPLIANCE WITH PERMIT

After the issuance of a Permit, no change shall be made in the location of the Sewer works, the grade, materials, or other details from those described in the Permit or as shown on the plans and specifications for which the Permit was issued, except with written permission from the General Manager and/or District Engineer.

8.6 AGREEMENT

The Applicant's signature on an application for any Permit shall constitute an agreement to comply with all of the provisions, terms and requirements of this and other ordinances, rules and regulations of the District, and with the plans and specifications he/she has filed with his/her application, together with such corrections or modifications as may be made or permitted by the District. Such agreement shall be binding upon the app1icant and may be a1tered only by the District upon the written request for the alteration from the Applicant.

8.7 CHARGES FOR ANNEXATION

Annexation charges shall be paid by the property owner(s). The annexation charges shall be paid in the amount and at the time as set forth by a separate ordinance of the District.

8.8 INSPECTION CHARGES

A fee established by resolution of the District Board shall be charged the Applicant for the inspection of all Sewer work, including vent-traps and cleanouts, 1aterals, and wye connections. An additional fee in the same amount of this fee shall also be charged for each re-inspection of work which was found to be defective during a previous inspection.

8.9 STREET EXCAVATION PERMIT

The Applicant shall obtain the necessary bond and Permit for opening Streets or for encroachments in Streets, required by the City or County and shall comply with existing City and County regulations regarding backfill, paving or repaving.

SECTION 9.0 - OUTSIDE SEWERS

l

9.1 SPECIAL OUTSIDE AGREEMENTS.

Where special conditions exist relating to any Outside Sewer, they shall be the subject of special contract between the Applicant and the District, and the Applicant shall be charged for Sewage service accordingly.

SECTION 10.0 - MISCELLANEOUS PROVISIONS

10.1 PROTECTION FROM DAMAGE

No Person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface or tamper with any structure, appurtenance or equipment which is a part of the District's Sewer system. Any Person violating this provision shall be subject to the penalties provided by law.

10.2 INSPECTION AUTHORITY

(a) An officer or other employee of the District duly authorized to administer and enforce the rules and regulations of the District may, upon exhibiting proper credentials and identification, request permission to enter in and upon any and all Buildings, industrial facilities, other properties for the purpose of inspection, reinspection, observation, measurement, sampling, testing and otherwise performing such duties as may be necessary in the enforcement of the provisions of the ordinances, rules, and regulations of the District. If permission is granted, the officer or employee shall enter and perform the duties he/she is there to perform. If permission is not granted, in addition to other available options the officer or employee may request the District to seek a warrant to inspect pursuant to Section 1822.50-1822.59 of the California Code of Civil Procedure.

(b) Notwithstanding subsection (a) immediately above, if in the reasonable judgement of such duly authorized officer or employee there exist on or in a Building, industrial facility, or other property circumstances that he or she reasonable believes requires immediate inspection to prevent physical harm to any person or harm or damage to such premises and/or adjacent properties, the officer may enter immediately with or without permission to observe and address the circumstances.

10.3 SEPARABILITY

If any section, subsection, sentence, clause or phrase of. this Ordinance or the application thereof to any Person or circumstance is for any reason held to be unconstitutional or invalid, such decision shall not affect the validity of the remaining portions of this Ordinance or the application of such provision to other Persons or circumstances. The Board hereby declares that it would have passed this Ordinance or any section, subsection, sentence, clause or phrase hereof irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared to be unconstitutional.

SECTION 11.0 - ENFORCEMENT

11.1 VIOLATIONS

Any Person found to be violating any provision of this or any other Ordinance, rule or regulation of the District shall be given written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction there-of. Said time limit shall not exceed five (5) working days or such other time as reasonably determined by District to correct the violation. The offender shall, within the period of time stated in such notice, permanently cease all violations. All Persons shall be held strictly responsible for any and all acts of agents or employees done under the provisions of this or other Ordinance, rule or regulation of the District.

11.2 PUBLIC NUISANCE

Continued habitation of any Building or continued operation of any industrial facility in violation of the provisions of this or any other Ordinance, rule or regulation of the District is hereby declared to be a public nuisance. The District may cause proceedings to be brought for the abatement of the occupancy of the Building during the period of such violation.

11.3 DISCONNECTION

For violation of Section 6.05 of this Ordinance, an immediate disconnection may be made. As a further method of enforcing the provisions of this or any other Ordinance, rule or regulation of the District, the General Manager shall have the power to disconnect the user or subdivision Sewer system from the Sewer mains of the District. Upon disconnection, the General Manager shall estimate the cost of dis-connection from and reconnection to the system, and such user shall deposit the cost, as estimated, of disconnection and reconnection before such user is reconnected to the system. The General Manager shall refund any part of the deposit remaining after payment of all costs of disconnection and reconnection.

11.4 PUBLIC NUISANCE ABATEMENT

During the period of such disconnection, habitation of such premises by human beings shall constitute a public nuisance, whereupon the District shall cause proceedings to be brought for the abatement of the occupancy of said premises by human beings during the period of such disconnection. In such event, and as a condition of reconnection, there is to be paid to the District a reasonable attorney's fee and cost arising in said action.

11.5 MEANS OF ENFORCEMENT ONLY

The District hereby declares that the foregoing procedures are established as a means of enforcement of the terms and conditions of its Ordinances, rules and regulations, and not as a penalty.

11.6 MISDEMEANOR

Section 6523 of the Health and Safety Code of the State of California provides that a violation of a regulation or ordinance of a District is a misdemeanor, punishable by imprisonment in the County jail not to exceed 30 days, or by fine not to exceed one thousand dollars (\$1,000), or by both.

Each and every connection or occupancy in violation of the Ordinances, rules and regulations of the District shall be deemed a separate violation and each and every day or part of a day a violation of the Ordinance, rule or regulation continues shall be deemed a separate offense hereunder and shall be punishable as such.

11.7 LIABILITY FOR VIOLATION

Any Person violating any of the provisions of the Ordinances, rules or regulations of the District shall become liable to the District for any expense, loss or damage occasioned by the District by reason of such violation.

SECTION 12.0 - REPEAL OF INCONSISTENT ORDINANCES

12.1 INCONSISTENT ORDINANCES

This Ordinance repeals and supersedes Ordinance 84 and, 1991-06, and 2019-01 and all other Ordinances and part of Ordinances insofar as they conflict with this Ordinance.

12.2 PUBLICATION

Upon adoption, this Ordinance shall be published once in a newspaper of general circulation published in the District and shall take effect one week after such publication.Upon adoption, a summary of this ordinance shall be published once in a newspaper published in the District along with the names of those board members voting for and against the ordinance; and a certified copy of the full text of the ordinance shall be posted in the District office. This ordinance shall be entered in the minutes and be published and take effect upon the expiration of the week of publication.

ORDINANCE NO. 2024-02

AN ORDINANCE (1) REPEALING AND REPLACING ORDINANCE NO. 2019-01 UNIFORM PLUMBING ORDINANCE OF THE CARMEL AREA WASTEWATER DISTRICT, AND (2) ADOPTING THE UNIFORM PLUMBING ORDINANCE OF THE CARMEL AREA WASTEWATER DISTRICT

-000-

THE BOARD OF DIRECTORS OF THE CARMEL AREA WASTEWATER DISTRICT (CAWD) DOES ORDAIN AS FOLLOWS:

1. <u>Adopted</u>. The attached "Uniform Plumbing Ordinance " (Exhibit A) consisting of 36 pages, establishing standards governing sewer piping, construction design, disposal of sewage, and various other related matters within the Carmel Area Wastewater District, is hereby adopted by the District, to read in its entirety as set forth in Exhibit A, incorporated herein by this reference.

2. <u>Repeal and replacement of Ordinance 2019-01</u>. This Ordinance repeals and replaces Ordinance 2019-01, and any other CAWD ordinance, resolution, rule or regulations inconsistent herewith. The provisions of this Ordinance, insofar as they are substantially the same as prior provisions relating to the same subject matter shall be construed as restatements and continuations thereof and not as new enactments. To the extent this Ordinance or any portion or section of this Ordinance is determined invalid or unconstitutional, such portions of Ordinance 2019-01 shall remain in effect and such penalties due thereunder for any categories of violation shall remain due and payable as if those portions of Ordinance 2019-01 had not been replaced. With respect, however to violations, rights accrued, liabilities accrued, or appeals taken, prior to the effective date of this Ordinance, under any chapter, ordinance, or part of an ordinance, such chapter, ordinance or part of an ordinance shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceedings, with respect to any violation, right liability or appeal.

3. <u>Summary of Ordinance</u>. An ordinance regulating the use of public and private sewers, the installation and connection of building laterals, the installation of sewer laterals and public sewer main extensions, providing permits and fees for the installation and connection of sanitary sewers, establishing charges, providing penalties for the violation of the provisions hereof. A true and certified copy of the full text of this ordinance and the incorporated Exhibit A are on file and available for inspection at the District offices.

45

4. <u>Severability</u>. The Board declares that each section, subsection, paragraph, subparagraph, sentence, clause, phrase, and graphic of this ordinance is severable and independent of every other section, subsection, paragraph, subparagraph, sentence, clause, phrase and graphic of this ordinance.

If any section, subsection, paragraph, subparagraph, sentence, clause, phrase, or graphic of this ordinance is held invalid, the Board declares that it would have adopted the remaining provisions of this ordinance irrespective of the portion held invalid, and further declares its express intent that the remaining portions of this ordinance should remain in effect after the invalid portion has been eliminated.

5. <u>CEQA Exempt</u>. This approval is covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. It can be stated with certainty that adoption of the standards set out in Exhibit A is not an activity that may have a significant effect on the environment, and therefore is not subject to CEQA. (CEQA Guidelines, Section 15601(b)(3))

46

6. Publication. This ordinance shall be a general regulation of the District and in accordance with Section 6490 of the Sanitary District Act of 1923 this ordinance shall be entered in the District's minutes and a summary of this ordinance prepared by District Legal Counsel shall be published once in a newspaper published in the District along with the names of those board members voting for and against the ordinance; and a certified copy of the full text of the ordinance shall be posted in the District Office.

7. Effective Date. This ordinance shall take effect upon the expiration of the week of publication.

PASSED AND ADOPTED at a regular meeting of the Board of Directors of the Carmel Area Wastewater District duly held on September 26, 2024, by the following vote:

> AYES: BOARD MEMBERS: NOES: BOARD MEMBERS: ABSENT: BOARD MEMBERS: ABSTAIN: BOARD MEMBERS:

> > Ken White, President of the Board

ATTEST:

Domine Barringer, Board Clerk

STAFF REPORT

To:	Board of Directors	4/NCE 1902
From:	Patrick Treanor, District Engineer	
Date:	September 26 th , 2024	
Subject:	Adopting Revisions to the Uniform Plumbing Ordinance & Penalties Ordinance	: Administrative

RECOMMENDATION

It is recommended that the Board of Directors approve Ordinance No. 2024-02, adopting revisions to the Carmel Area Wastewater District (CAWD) Uniform Plumbing Ordinance, and Ordinance No. 2024-03, adopting revisions to the CAWD Administrative Penalties Ordinance.

DISCUSSION

CAWD staff are recommending revisions to the District's Uniform Plumbing Ordinance in order to clarify requirements for grease interceptors and update the ordinance to be more in line with existing standards contained in the current California Plumbing Code.

In order to establish a process to enforce any violation of the District's Ordinances, the Administrative Penalties Ordinance is being recommended to be revised to incorporate provisions for handling continuing/ongoing violations that exist after the expiration of a correction period contained in a specific compliance order.

Prior to bringing these ordinance revisions to the Board of Directors, CAWD staff conducted outreach to the Carmel Restaurant Association in the form of a presentation. Also, staff sent notices to each restaurant in our District with an invitation to a special information session at the CAWD offices held on September 4th, and an invitation to today's board meeting.

The proposed ordinances revisions were also posted on the CAWD website.

FUNDING

Updating these ordinances requires minimal funding to publish a summary of each ordinance in the local newspaper. Funding exists in the "Legal Notices" line item in the FY 2024-25 Budget.

ADMINISTRATIVE PENALTIES

ORDINANCE 2019-03

(Current Revision by Ordinance 2024-03)

CARMEL AREA WASTEWATER DISTRICT

Exhibit A

EFFECTIVE DATE: May 24, 2019 PENDING

Table of Contents

1.0	Purpose and Intent	2

ADMINISTRATIVE PENALTIES

1.0 Purpose and Intent

These Administrative Penalties procedures ("Procedures"), adopted as authorized by Sections 53069.4 and 54951 of California government code, establish an enforcement mechanism for violations of Carmel Area Wastewater District ("CAWD") rules and regulations ("Regulations"), including without limitation the Sanitary <u>Sewer</u> Standard Plans and Specifications and the Pretreatment Ordinance and the Uniform Plumbing Ordinance. These Procedures are in addition to any other procedures or legal remedies available to address violations of CAWD Regulations. The Board of Directors finds that the enforcement of CAWD Regulations is an important public service and is vital to the protections of the public's health, safety and quality of life. CAWD's comprehensive code enforcement system uses a combination of judicial and administrative remedies to gain compliance with Regulations.

2.0 Definitions

- (A) "Administrative Citation" is an official notification, on a form meeting the criteria of these Procedures, of a violation of any provision of CAWD Regulations. Administrative Citations require correction of the violations they identify and impose penalties on the Responsible Person(s).
- (B) "Compliance Order" is an official notification, on a form meeting the criteria of these Procedures, of violations of any provision of CAWD Regulations. Compliance Orders require correction of the violations they identify.
- (C) "Enforcement Officer" is any person appointed by CAWD to implement the provisions of these Procedures.
- (D) "Responsible Person" is any person that an Enforcement Officer determines is responsible for the causing, maintaining, committing, or allowing a violation of CAWD Regulations. A Responsible Person includes without limitation anyone who exercises legal or physical control over a property or business premises in the City, such that the Responsible Person is capable of preventing or correcting violations of CAWD Regulations.

3.0 Administration

The CAWD General Manager shall administer these Procedures, and may establish appropriate rules, forms, and process for administration, consistent with the requirements of these Procedures. The CAWD General Manager may appoint, or may designate another CAWD official to appoint, one or more Enforcement Officers to issue Compliance Orders and Administrative Citations

4.0 Compliance Order Issuance

- (A) When an Enforcement Officer observes a correctable, continuing violation of CAWD Regulations creating no immediate danger to health or safety, the Enforcement Officer may issue a Compliance Order to any Responsible Person.
- (B) Each Compliance Order shall be in writing and shall include, without limitation, the following information:
 - (1) The date of the violation(s) and the date of service of the Compliance Order.

- (2) The address or a definite description of the location where the violation(s) are occurring or exist, and the approximate time the violation(s) occurred or was observed.
- (3) The name, address, and other identifying information of the Responsible Person(s).
- (4) A description of the violation(s), including citation to the sections(s) of CAWD Regulations.
- (5) An order requiring the correction of the violation(s) within (10) days of the date of the Compliance Order, or within such other reasonable time as the Enforcement Officer may determine, and notifying the Responsible Person that a fine may be imposed if the correction(s) is not made before the expiration of the correction period.
- (6) An order prohibiting the continuation or repeated occurrence of the violation(s).
- (7) The fine schedule for the violation(s).
- (8) The name and signature of the Enforcement Officer.
- (C) If the Enforcement Officer determines that all violation(s) specified in the Compliance Order have been corrected within the time set forth in the Compliance Order, no further action shall be taken against the Responsible Person(s) regarding the violations. If all violations(s) specified in the Compliance Order are not corrected with the time set forth in the Compliance Order, the Enforcement Officer may issue an Administrative Citation to the Responsible Person(s). Issuance of an Administrative Citation does not alter the obligation to comply fully with the Compliance Order.

5.0 Administrative Citation Issuance

(A) When an Enforcement Officer observes a violation of the CAWD Regulations other than a continuing, correctable violation of CAWD creating no immediate danger to health or safety, or when all violation(s) in a Compliance Order have not been corrected within the time set forth in that Compliance Order, the Enforcement Officer may issue an Administrative Citation to any Responsible Person.

- (B) Each Administrative Citation shall be in writing and shall include, without limitation, the following information:
 - (1) The date of the violation(s) and the date of service of the Administrative Citation.
 - (2) The address or a definite description of the location where the violation(s) was observed.
 - (3) The name, address, and other identifying information of the Responsible Person(s).
 - (4) A description of the violation(s), including reference to the section(s) of the CAWD Regulations violated.
 - (5) An order prohibiting the continuation or repeated occurrence of the violation.
 - (6) The fine schedule for the violation.
 - (7) A description of how, when, and where the fine must be paid.
 - (8) A brief description of the Administrative Citation hearing process, including a statement that the Responsible Person has the right to contest the Administrative Citation by requesting a hearing within ten

(10) calendar days of the date of service of the Administrative Citation in accordance with this Section, and a statement that anyone aggrieved by the decision of the administrative hearing officer may petition for review by the Monterey County Superior Court within the applicable time frame and pursuant to other applicable requirements.

- (9) The name and signature of the Enforcement Officer.
- (C) Each-Each and every violation of CAWD Regulations shall constitute a separate violation and shall be subject to all remedies and enforcement measures authorized by CAWD. Any recurring or continuing violation of the CAWD Regulations after the expiration of any correction period set forth in a Compliance Order may be assessed fines constitutes a separate violation for every each day such violation continues, an Administrative Citation may be issued for each separate violation.

6.0 Notices

All notices, including Compliance Orders and Administrative Citations, required per these Procedures shall be served on the Responsible Person(s) in accordance with the following provisions:

- (A) Notices may be personally served on a Responsible Person. When an Enforcement Officer issues a Compliance Order or an Administrative Citation in the presence of a Responsible Person, that a Responsible Person shall be asked to sign the Compliance Order or Administrative Citation to acknowledge receipt. A Responsible Person's failure or refusal to sign a Compliance Order or an Administrative Citation shall not affect the validity of that Compliance Order or Administrative Citation, and a Responsible Person's signature on any Administrative Citation shall not constitute an admission of responsibility.
- (B) Notices may be mailed to the Responsible Person by certified mail, postage prepaid, return receipt requested. Simultaneously, the same notice may be sent by first-class mail, postage prepaid. If a notice sent by certified mail is returned unclaimed, service by first-class mail shall nevertheless be effective if that mail is not returned.

If the violation consists of a condition of real property or otherwise affects real property, such notice shall be addressed to the Responsible Person at the property's address, unless the Enforcement Officer knows or has reason to know that the United States Postal Service does to deliver mail to that property. In addition, if the Enforcement Officer's reasonable investigation reveals a different home or business address for the Responsible Person, a copy of the notice shall also be sent to his alternate address by first-class mail, postage prepaid.

- (C) If after good faith attempts to serve a Responsible Person notice has not been served, a copy of that notice shall be posted in a conspicuous place on the property where the alleged violation has been observed.
- (D) If a Compliance Order or Administrative Citation is issued for violation of CAWD Regulations by a business or other organization, and if the Responsible Person cited is not the sole owner of that business or other organization, a copy of the Compliance Order or Administrative Citation and of any other notices required in connection with that Administrative Citation shall also be personally delivered or shall be sent by first-class mail, postage prepaid, to the owner or director of that business or other organization, as may be determined by the Enforcement Officer's investigation.

- (E) If a Compliance Order or Administrative Citation is issued for a violation of CAWD Regulations existing on real property, and if the Responsible Person cited is not shown in the official records of the CAWD as the sole owner in fee simple of the real property, a copy of the Compliance Order or Administrative Citation and of any other notices required in connection with that Administrative Citation shall also be personally delivered or shall be sent by first-class mail, postage prepaid, to any owners of interests in that property that may be affected by the violation, at the address shown on the last equalized County assessment roll, and at such other address as may be determined by the Enforcement Officer's investigation.
- (F) If the Enforcement Officer does not succeed in serving the Responsible Person personally, and if the enforcement investigation reveals no home or business address for the Responsible Person, and if the violation does not consist of any condition of real property, the Enforcement Officer shall cause the notice to be published once a week for four successive weeks in a local newspaper published at least once per week.
- (G) Service of any notice in accordance with these requirements may be proven by declaration or affidavit. Service is complete upon personal delivery, upon deposit with the United States Postal Service, upon posting on property or upon completion of publication according to provisions of this Section. Failure of any person with an interest in the Compliance Order or Administrative Citation to receive properly served notice shall not affect the validity of any proceedings under these Procedures.

7.0 Administrative Citation hearings

(A) Any Responsible Person may contest an Administrative Citation by requesting a hearing within (10) calendar days from the date of service of the Administrative Citation. The hearing request must be in writing on a form furnished by CAWD, specifying in detail the basis for contesting the Administrative Citation. The Responsible Person requesting the hearing shall deposit with CAWD either the amount of the fine or an application for hardship waiver.

- (B) CAWD shall hold a hearing within thirty (30) days of receiving a hearing request that complies fully with subsection (A) of this Section 7.0. The Responsible Person requesting the hearing, as well as any other persons upon whom the Administrative Citation was served shall be notified of the time and place of the hearing at least ten (10) days before the hearing date. Either the Responsible Person or CAWD official may request a continuance of the hearing to a mutually agreeable date, but in no event may the hearing begin later than (60) days after CAWD receives a hearing request, accompanied by either deposit of the fine or a completed hardship waiver application.
- (C) CAWD shall designate a hearing officer to hear and decide appeals of administrative citations. This hearing officer may, but need not, be an employee of CAWD. The employment, performance evaluation, compensation, and benefits, if any, of a hearing officer shall not be directly or indirectly conditioned upon the number of Administrative Citations or the amount of administrative fines upheld by the hearing officer.
- (D) Failure to file a timely appeal request in accordance with this Section shall constitute a waiver of the Responsible Person's right to contest all matters set forth in the Administrative Citation.

8.0 Hardship Waiver

- (A) Any Responsible Person who requests a hearing to contest an Administrative Citation and who is financially unable to deposit the administrative fine may request a hardship waiver.
- (B) This request shall be filed with the hearing request. The request shall be accompanied by an affidavit, and any other relevant supporting materials, demonstrating the Responsible Person's inability to deposit the fine in advance of the hearing.
- (C) The CAWD General Manager or his or her designee shall decide within ten (10) days of receipt of the hardship waiver request whether to issue a hardship waiver. The decision shall be in writing and shall be served upon the Responsible Person requesting the waiver. The decision shall be final.

(D) If the CAWD General Manager or his or her designee decides that a hardship waiver is unwarranted, the Responsible Person shall deposit the full amount of the fine within ten (10) days of service of the written decision, or within ten (10) days from the date of the Administrative Citation, whichever is later. If the Responsible Person fails to deposit this fine before the due date, the Responsible Party shall be deemed to have failed to file an appeal, and therefore to have waived the right to contest all matters set forth in the Administrative Citation.

9.0 Hearing Procedure

- (A) On the date and at the time and place set forth in the notice of hearing, the hearing officer shall conduct an orderly hearing and shall accept evidence on which persons commonly would rely in the conduct of their business affairs. Formal rules of evidence shall not apply.
- (B) The Responsible Person contesting the Administrative Citation shall have the opportunity to testify and to present evidence, including witnesses, concerning the alleged violation. Any other interested party, including without limitation the property or business owner, employees, or neighbors, may also present evidence. The hearing officer shall limit the evidence to that which is relevant to establishing or refuting the violation alleged in the Administrative Citation.
- (C) Failure of a Responsible Party or other interested person to attend a scheduled hearing shall constitute a waiver of the right to present evidence in the matter.
- (D) The Administrative Citation and any other reports submitted by the Enforcement Officer shall constitute evidence that upon initial examination, and unless rebutted, supports the facts stated in those documents.
- (E) The hearing officer may take the matter under consideration, may continue the hearing, and may request additional information from the Enforcement Officer or from the Responsible Person or others.

- (F) Based on preponderance of the evidence, the hearing officer shall determine whether to affirm or dismiss the Administrative Citation. The hearing officer may not reduce, waive, or conditionally reduce the fines established by these Procedures.
- (G) The hearing officer shall make findings based on the record of the hearing and shall issue a final written decision based on those findings. The written decision shall be served upon the Responsible Person along with notice regarding the right to further appeal.
- (H) If the hearing officer affirms the Administrative Citation, CAWD shall retain any fine deposited by the Responsible Person. If the hearing officer affirms the Administrative Citation and the fine has not yet been deposited because of an approved hardship waiver, the hearing officer shall specify in the written decision a payment schedule for the fine, including the date upon which the fine will be overdue. If the hearing officer dismisses the Administrative Citation, any fine deposited with CAWD shall be promptly refunded.

10.0 Judicial review

Any person aggrieved by an administrative decision of a hearing officer may obtain review of that decision by filing a petition for review in the Monterey County Superior Court, according to requirements of California Government Code Section 53069.4.

11.0 Administrative Citation Collection

- (A) Fines for violation of requirements of the CAWD Uniform Plumbing Ordinance Section 4.3 "Grease Interceptors" shall be as follows:
 - (1) Failure to have any drainage fixture within a commercial kitchen or restaurant kitchen connected to a grease interceptor or trap will result in fines of \$100 for each day that a violation continues after the expiration of any correction period set forth in a Compliance Order.
 - (2) Failure to have a properly sized, properly installed, or properly functioning grease interceptor or trap installed to serve drainage fixtures in a commercial kitchen or restaurant kitchen will result in fines of \$100 for each day that a violation continues after the expiration of any correction period set forth in a Compliance Order.

- (B) Fines for violation of the requirements of the CAWD Uniform Plumbing Ordinance Section 3.3 "Unlawful Disposal" will result in fines of \$100 for each day that a violation continues after the expiration of any correction period set forth in a Compliance Order.
- (A)(C) For any violation of CAWD Regulations for which no other specific penalty is established, the fine imposed by an Administrative Citation for that violation shall be fifty dollars (\$50.00) for the first violation; one-hundred dollars (\$100.00) for a second violation of the same provision of CAWD Regulations within a twelve (12) month period; and five hundred dollars (\$500.00) for each additional violation of that same provision within a twelve (12) month period for each day that a violation continues after the expiration of any correction period set forth in a Compliance Order.
- (B)(D)_Fines for Administrative Citations shall be payable directly to CAWD and are due immediately upon service of the Administrative Citation. Such fines constitute a debt owed to CAWD.
- (C)(E) Payment of the fine associated with any Administrative Citation shall not excuse the violation, nor shall it bar other or further enforcement activity by CAWD.
- (D)(F) Any fine paid for an Administrative Citation shall be refunded if it is determined after a hearing under these Procedures that the violation charged in the Administrative Citation did not exist or occur, and therefore that the Administrative Citation was dismissed.
- (E)(G) If payment of a fine is not received by CAWD within thirty (30) days of its due date, the fine is overdue unless a timely hearing request including an application for a hardship waiver has been filed. If a hardship waiver application is denied, the fine is overdue unless the full amount is deposited within ten (10) days of service of the written decision denying the hardship waiver, or within thirty (30) days from the date of the Administrative Citation, whichever is later. If the hardship waiver is granted and the hearing office affirms the Administrative Citation the hearing officer shall set forth a payment schedule for the fine that shall specify the date on which the fine becomes overdue. In such case, the fine shall be overdue on that date, unless a timely appeal from the hearing officer's determination is filed

with CAWD. If any such appeal is dismissed, or if the decision of CAWD is to affirm the Administrative Citation, the fine shall be overdue ten (10) days after service by CAWD of entry of judgment or of dismissal, or twenty (20) days after the entry of judgment or of dismissal, whichever is first. A late penalty equal to fifty percent (50%) of the total fine shall be assessed for any overdue fine.

(F)(H) If the fine is overdue, and if the violation of CAWD Regulations for which the fine was assessed occurred on or was a condition of real property, the outstanding fine and late penalty shall constitute a lien against that real property. The Enforcement Officer shall prepare and file with CAWD a report stating the amount due and owing.

CAWD may record notice of this lien after a hearing before CAWD Board of Directors to consider any protest or objection to the lien. The Enforcement Officer shall serve notice of the hearing upon the owner of record of real property, based on the last equalized assessment roll or the supplemental roll, whichever is more current. The notice of hearing shall include the time, date, and place of hearing and the amount of the lien to be imposed and shall be served accordingly.

If CAWD determines that the lien should be imposed, the CAWD General Manager may cause notice of the lien to be recorded by the County Recorder. Once recorded, the lien shall have the force and effect and priority of a judgment lien governed by Section 697.340 of the California Code of Civil Procedure and may be extended as provided in Sections 683.110 to 683.220, inclusive, of that Code.

(G)(I) The remedies set forth in this section are not exclusive. CAWD may collect past due fines for Administrative Citations, and penalties for late fines, using small claims court or by any other legal remedy.

ORDINANCE NO. 2024-03

AN ORDINANCE (1) REPEALING AND REPLACING ORDINANCE NO. 2019-03 ADMINISTRATIVE PENALTIES ORDINANCE OF THE CARMEL AREA WASTEWATER DISTRICT, AND (2) ADOPTING THE ADMINISTRATIVE PENALTIES ORDINANCE OF THE CARMEL AREA WASTEWATER DISTRICT

-000-

THE BOARD OF DIRECTORS OF THE CARMEL AREA WASTEWATER DISTRICT (CAWD) DOES ORDAIN AS FOLLOWS:

1. <u>Adopted</u>. The attached "Administrative Penalties Ordinance" (Exhibit A) consisting of 12 pages, establishing enforcement mechanism for violations of the Carmel Area Wastewater District rules and regulations, is hereby adopted by the District, to read in its entirety as set forth in Exhibit A, incorporated herein by this reference.

2. <u>Repeal and replacement of Ordinance 2019-03.</u> This Ordinance repeals and replaces Ordinance 2019-03, and any other CAWD ordinance, resolution, rule or regulations inconsistent herewith. The provisions of this Ordinance, insofar as they are substantially the same as prior provisions relating to the same subject matter shall be construed as restatements and continuations thereof and not as new enactments.

To the extent this Ordinance or any portion or section of this Ordinance is determined invalid or unconstitutional, such portions of Ordinance 2019-03 shall remain in effect and such penalties due thereunder for any categories of violation shall remain due and payable as if those portions of Ordinance 2019-03 had not been replaced. With respect, however to violations, rights accrued, liabilities accrued, or appeals taken, prior to the effective date of this Ordinance, under any chapter, ordinance, or part of an ordinance, such chapter, ordinance or part of an ordinance shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceedings, with respect to any violation, right liability or appeal.

3. <u>Summary of Ordinance.</u> An ordinance establishing an enforcement mechanism for violations of Carmel Area Wastewater District rules and regulations ("Regulations"), including without limitation, the Sanitary Sewer Standard Plans and Specifications, the Pretreatment Ordinance and the Uniform Plumbing Ordinance. These Procedures are in addition to any other procedures or legal remedies available to address violations of CAWD Regulations. The Board of Directors finds that the enforcement of CAWD Regulations is an important public service and is vital to the protection of the public's health, safety and quality of life.

CAWD's comprehensive code enforcement system uses a combination of judicial and

63

administrative remedies to gain compliance with Regulations.

A true and certified copy of the full text of this ordinance and the incorporated Exhibit A are on file and available for inspection at the District offices.

4. <u>Severability</u>. The Board declares that each section, subsection, paragraph, subparagraph, sentence, clause, phrase, and graphic of this ordinance is severable and independent of every other section, subsection, paragraph, subparagraph, sentence, clause, phrase and graphic of this ordinance. If any section, subsection, paragraph, subparagraph, sentence, clause, phrase, or graphic of this ordinance is held invalid, the Board declares that it would have adopted the remaining provisions of this ordinance irrespective of the portion held invalid, and further declares its express intent that the remaining portions of this ordinance should remain in effect after the invalid portion has been eliminated.

5. <u>CEQA Exempt</u>. This approval is covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. It can be stated with certainty that adoption of the standards set out in Exhibit A is not an activity that may have a significant effect on the environment, and therefore is not subject to CEQA. (CEQA Guidelines, Section 15601(b)(3))

6. <u>Publication</u>. This ordinance shall be a general regulation of the District and in

64

accordance with Section 6490 of the Sanitary District Act of 1923 this ordinance shall be entered in the District's minutes and a summary of this ordinance prepared by District Legal Counsel shall be published once in a newspaper published in the District along with the names of those board members voting for and against the ordinance; and a certified copy of the full text of the ordinance shall be posted in the District Office.

7. <u>Effective Date</u>. This ordinance shall take effect upon the expiration of the week of publication.

PASSED AND ADOPTED at a regular meeting of the Board of Directors of the Carmel Area Wastewater District duly held on September 26, 2024, by the following vote:

> AYES: BOARD MEMBERS: NOES: BOARD MEMBERS; ABSENT: BOARD MEMBERS:

APPEARANCES, ORDERS OF BUSINESS & ANNOUNCEMENTS

1. *Appearances/Public Comments:* Anyone wishing to address the Board on a matter not appearing on the agenda may do so now. Public comment shall be limited to 3 minutes per person. No action shall be taken on any item not appearing on the agenda. During consideration of any agenda item, public comment shall be limited to 3 minutes per person and will be allowed prior to Board action on the item under discussion.

Director Siegfried stated that budget session is approaching and asked that part of the newsletter being converted to an email format. Director Siegfried would like to agendize a discussion about that topic before the budget begins. The Board was in consensus.

Ryan Heron made an introduction as the Union Representative of LiUna Local 792 and that he represents the employees of the District and addressed the letter he submitted to the Board. The Board is in receipt of the letter.

Hunter Leighton requested the District conduct an audit of Accessory Dwelling Units.

Alexis Schweisinger made an introduction and stated they are currently working with District on Geographical Information Systems (GIS) issues.

Ed Waggoner, Superintendent of Plant, addressed the Board regarding the laboratory.

The information that Mr. Littman submitted to the board was given to all board members. Mr. Littman was not present during the meeting.

2. Agenda Changes: Any requests to move an item forward on the agenda will be considered at this time.

Insertion of the Workplace Violence Staff Report was presented on screen during the presentation of the program to the Board and was posted to the District website as a separate item.

CONSENT CALENDAR: APPROVAL OF MINUTES, FINANCIAL STATEMENTS AND MONTHLY REPORTS-ALL REPORTS RELATE TO CURRENT YEAR

The Consent Agenda consists of routine items for which Board approval can be taken with a single motion and vote. A Board Member July request that any item be placed on the Regular Agenda for separate consideration.

Board Action

A Motion To Receive And Approve The Consent Agenda Was Made By Director Urquhart And Seconded By Director Cole. After A Roll Call Vote, The Board Unanimously Received And Approved The Following Consent Calendar/Agenda.

Director Cole asked about Page 9 on the meeting notes regarding the July 25 meeting minutes that clarification was needed and that eminent domain was a fallback position and avoid it if at all possible. Director Cole read the Board Action: **"A Motion Was Made By President White And Seconded By Director Urquhart To Be Able To Pursue All Possible Options Of All Real Property Acquisition In Furtherance Of This Project**."

Director Urquhart stated that the legal counsel's language needs to be legally correct, but it does not reflect the intent of the motion or the Board's time. Director Urquhart suggested that something be emphasized in notes that what Director Cole is saying is that eminent domain is that last resort, and the District would attempt to avoid it. As it is shown in the notes it does not reflect the intent of the motion. The Board did not forgo eminent domain, but we were also making a statement that it is the last resort and last choice option.

- **3.** July 25,2024 Regular Board Meeting Minutes, August 13, and 15 Pension & Investment -Long Term Investments, August 21, 2024 Bridge To Everywhere Minutes
- 4. Receive and Accept Bank Statement Review by Clifton Larson Allen (CLA)-July 2024

Resolution No. 2024-50; A Resolution Authorizing The Annual Adjustment Of the District's Reserve Fund Balances By Transferring \$8,255,948 To The Capital Fund And \$4,645,442 To The Capital Fund From the General Operations & Maintenance Fund And Capital Improvement Reserve, Respectively, In Accordance With The District's Reserve Policy-Report by General Manager, Barbara Buikema

A Motion To Approve The Resolution Was Made By Director Urquhart And Seconded By Director Cole. Following A Roll Call Vote, The Board Unanimously Passed Resolution 2024-50, Authorizing The Annual Adjustment Of the District's Reserve Fund Balances By Transferring \$8,255,948 To The Capital Fund And \$4,645,442 To The Capital Fund From the General Operations & Maintenance Fund And Capital Improvement Reserve, Respectively, In Accordance With The District's Reserve Policy.

23. Resolution No. 2024-51; A Resolution Authorizing The General Manager To Enter Into A Contract With Osborne Partners For Investment Management Services For The District Legacy Defined Benefit Pension Plan-Report by General Manager, Barbara Buikema

A Motion To Approve The Resolution Was Made By Director Urquhart And Seconded By Director Siegfried. Following A Roll Call Vote, The Board Unanimously Passed Resolution 2024-51, Authorizing The General Manager To Enter Into A Contract With Osborne Partners For Investment Management Services For The District Legacy Defined Benefit Pension Plan.

24. Resolution No. 2024-52; A Resolution Authorizing The General Manager To Invite Bids For The Construction Of A Replacement Timber Retaining Wall –Ribera Road-Report by Principal Engineer, Jeff Bandy

A Motion To Approve The Resolution Was Made By Director Cole And Seconded By Director Rachel, With Director Urquhart Abstaining. Following A Roll Call Vote, The Board Passed Resolution 2024-52, Authorizing The General Manager To Invite Bids For The Construction Of A Replacement Timber Retaining Wall–Ribera Road.

COMMUNICATIONS

25. General Manager Report- *Report by General Manager, Barbara Buikema*

OTHER ITEMS BEFORE THE BOARD

- **26.** Ad Hoc Committee Member Selection: Director Concerns & National Association of Corporate Directors
 - Director Urquhart volunteered his participation in a previous board meeting.
 - Requesting another Director to join and for the Board to provide the naming convention.

Director Siegfried stated that the National Association of Corporate Directors at the last meeting was determined to be optional. Director Siegfried stated that Director Urquhart's concerns should be added directly to the agenda going forward instead of establishing another committee.

Director Urquhart's recollection is that the Directors were asked what they would like to see evaluated in the future. The suggestion was that there should be the creation of an ad hoc committee be formed to review and come back to the Board, it is up to the Board to decide how they would like to proceed.

President White suggested that the ad hoc committee not be formed and agreed to add these items directly to future agendas.

Barbara Buikema, General Manager requested that either Director Urquhart or Siegfried get back to her about the outstanding items to be added to future agendas. There was no objection from the Board.

Oral reports or announcements from Board President, Directors or staff concerning their activities and/or meetings or conferences attended.

PBCSD Board Public Meeting Notice & Agenda – The next PBCSD meeting is scheduled for:

August - 2024, – No Scheduled PBCD meeting. Friday, September 27, 2024, at 9:30 a.m. – Director Rachel is scheduled to attend.

Special Districts Association (SDA) of Monterey County – The next SDA meeting is scheduled for: *Tuesday, October 15, 2025, at 6:00 p.m. –Director Rachel is scheduled to attend. Tuesday, January (TBD), 2025, at 6:00 p.m. –Director Cole is scheduled to attend.*

Reclamation Management Committee (RMC) Meeting – The next RMC meeting is scheduled for: *Tuesday, November 12, 2024, at 9:30 a.m. President White and Director Rachel are scheduled to attend.*

- President White requested that the Board follow up on the staff request from the past board retreat.
- Director Siegfried attended the Annual California Extreme Precipitation Symposium in July 2024.
- Director Siegfried received confirmation that the public is reading the CAWD Connection newsletter.
- Director Siegfried commented on open source software with respect to some of the District licensing fees. He stated that some foreign nations have switched to open source software. Perhaps this is something that the District should consider.
- Director Cole complimented the District staff on their knowledge and professionalism in their roles at the District.
- Director Cole commented on her participation in the CASA conference and that it provided a wealth of information regarding wastewater and sanitary treatment.
- **34. CLOSED SESSION:** As permitted by Government Code Section 54956 et seq., the Board of Directors may adjourn to a Closed Session to consider specific matters dealing with litigation, certain personnel matters, real property negotiations, or to confer with the District's Meyers-Milias-Brown representative.

A. Public Employee Performance Evaluation

Pursuant to Government Code Section 54957.6 the Board will meet in closed session to consider a Personnel Matter: **General Manager Performance Evaluation**

B. Public Employee Labor Negotiations-Unrepresented Employee Pursuant to Government Code Section 54957.6 the Board will meet in closed session to consider a Personnel Matter: General Manager

The board took a break at 11:30 am before going into closed session. The board went into closed session at 11:45 a.m. and closed session ended at 1:15 p.m. The Board reconvened into open session at 1:15 p.m., and Legal Counsel reported out that the board took up the items on the agenda and discussed item 34A regarding the performance evaluation of the General Manager and item 34B regarding the negotiation of the unrepresented employee regarding the General Manager. Only time Item 34A was taken up in this session by the Board and was concluded by the Board. Any future negotiations regarding item 34B has been referred to a subcommittee to discuss that matter. There was no reportable action taken.

35. ADJOURNMENT

There being no further business to come before the Board, the President adjourned the meeting at 1:17 p.m. The next Regular Meeting will be held at 9:00 a.m., Thursday, September 26, 2024, or an alternate acceptable date, via teleconference webinar

SPECIAL BOARD MEETING - BOARD RETREAT

September 17, 2024, Tuesday, 9:00 a.m.

3945 Rio Road, Carmel, CA 93923

CALL TO ORDER - ROLL CALL:

The meeting was called to order at 9:05 a.m.

Present:President White, Board President
Suzanne Cole, Director
Mike Rachel, Director
Robert Siegfried, Director
Kevan Urquhart, Director

Absent: None *Signifies Virtual Attendance

Other Attendee: Barbara Buikema, General Manager, Robert Wellington, Legal Counsel Robert Rathie, Legal Counsel Annie Mitchell, Facilitator

- 1. Appearances/Public Comments: None
- 2. Agenda Changes None
- 3. Information/Discussion Items discussion of necessity for board support/training in the General Manager evaluation and devising processes that contribute to better board performance:
 - The first half of the retreat was devoted to a look at each director's one year and 5 year goals. One year goals included People, Projects, Succession, Outreach, and Process. Five year goals included a Review Compensation model, a response to the Union letter that included a written response to the letter, a "all hands" meeting and a notice to ratepayers to discuss goals. A one-on-one meeting with the Union Representative and Labor Stewards to define District goals was suggested.
- 4. Closed Session General Manager Performance Evaluation
 - The Board adjourned to Closed Session at 12:25 pm to discuss agenda item as it relates to General Manager Performance, they received information and there was no reportable action. The Board returned to Open Session at 12:59 p.m. where legal counsel reported that there was no reportable action taken.

5. ADJOURNMENT :

There being no further business to come before the Board, the meeting concluded at 12:30 p.m. The next Regular Board Meeting will be held Thursday, September 26, 2024 at 9:00 a.m. or an alternate acceptable date, in person and via teleconference webinar. The teleconference webinar is hosted through Zoom and you may receive access by visiting our website homepage, www.cawd.org, calling the District office at 831-624-1248 or via email at <u>downstream@cawd.org</u>.

To the Board of Directors Carmel Area Wastewater District

We have performed the procedures enumerated below, which were agreed to by Carmel Area Wastewater District (CAWD), solely to assist you in connection with a determination as to whether there were differences in the Company's recorded cash disbursements and recorded cash receipts for the month of August 2024. CAWD is responsible for its cash disbursements and cash receipts records. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

We have completed our review of your bank reconciliations for the Monterey County checking account, the Chase Bank O&M account, and the Chase Bank payroll account. This service is limited in scope and is neither designed nor intended to deter or discover fraud, embezzlements, or any other irregularities.

The procedures we performed, and the associated findings are as follows:

- (1) We reviewed individual checks (or electronic images of individual checks or substitute checks). This procedure did not reveal any significant differences.
- (2) We examined the signatures on each check and compared them to a copy of the signature card on file with your bank to determine if the correct authorized people have signed the checks (we are not handwriting or forgery experts). This procedure did not reveal any significant differences.
- (3) We examined the payees on the checks and matched it to the payee names appearing in your cash disbursements journal. This procedure did not reveal any significant differences.
- (4) We matched interbank account transfers. This procedure did not reveal any differences.

We were not engaged to and did not conduct an audit, the objective of which would be the expression of an opinion on the cash disbursements records or cash receipts records, accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

Carmel Area Wastewater District September 18, 2024 Page 2 of 2

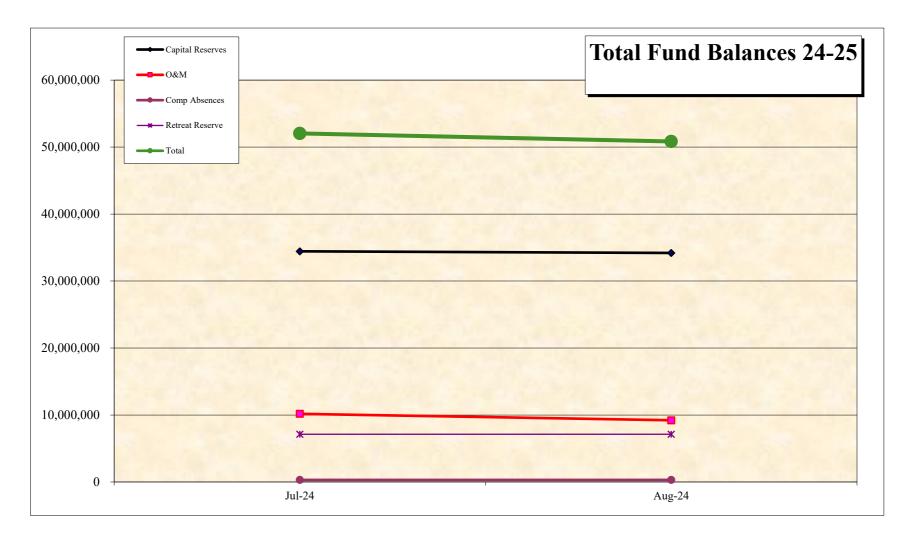

This report is intended solely for the information and use of the Board of Directors of Carmel Area Wastewater District and is not intended to be and should not be used by anyone other than these specified parties.

Robert Lee, CPA Principal CliftonLarsonAllen LLP

Service calls responded to by crew

Date	Time	Callout	Resolution
8/9/2024	8:24 AM	Private System Spill	Called by main office for a report of an
			overflowing manhole. Staff arrived on scene
			to find a manhole was blocked and
			overflowing. The manhole is part of a private
			system in Pacific Meadows retirement
			community. Staff ran the private sewer line
			and were able to open the blockage. Staff
			informed building maintenance to develop a
			cleaning schedule to avoid future problems.
			See service call map.
8/9/2024	11:22 AM	Main Line Sewer Spill	During routine easement rounds staff found
			manhole S616 overflowing. Staff called for
			assistance and at 11:22 am staff were able to
			open the blockage. Staff cleaned and
			disinfected the area and notified the
			necessary agencies. Staff meet with
			engineering to come up with a solution to
			prevent future spills. Staff will increase the
			frequencies of cleaning; staff installed a
			Smart cover monitoring system on the
			manhole that overflowed, and engineering is
			looking at a solution to fix the sag in the
			pipe. The sag in the pipe was the cause of the
			spill. The spill was estimated at 22,681
			gallons.
			See spill map for location.

Date	Time	Callout	Resolution
8/11/2024	2:54 PM	Odor Complaint	Called by the main office for report of an odor
			complaint. Staff arrived on scene and checked
			surrounding manholes; no odors detected. Staff
			checked with the property manager and was
			informed that the grease interceptor was pumped
			out earlier in the day and this could have been the
			source of the odor.
			See service call map.
8/27/2024	8:38 AM	Sewer Problem	Called by the main office for a report of water that
			had a foul odor and brown in color inside the
			home. Staff arrived on scene and talked with the
			homeowner to locate the source of the sewage.
			Staff were informed that when the owner turned
			on the sink the water was brown and foul. Staff
			informed the homeowner that they should call the
			local water company to report the problem of
			brown water. The source of the water was later
			reported to be annual hydrant flushing in the
			water system.
			See service call map.

USA Location Requests – 161 Plumbing permit inspections – 14 Private Sewer Lateral Compliance Certificates Issued – 5

STAFF REPORT

To:	Board of Directors
From:	Mark Dias, Safety and Regulatory Compliance Administrator (S/C Admin Dias)
Date:	September 26, 2024

Subject: Monthly Safety Report (for August 2024)

RECOMMENDATION

Receive Report- Informational only; no action required

DISCUSSION

Safety & Training

- August 8: Tailgate Training- Financial Safety. Based on an employee suggestion, and to add some variability to the weekly trainings, S/C Admin Dias described how to identify three current financial scams and how to protect against each type. An employee who has been scammed is more likely to be upset and distracted at work. Scams covered were gift-card draining, fake customer service numbers, and co-opted short-term rental listings.
- August 14: Tailgate Training- Mental Health and Safety. Aleksandra Kalnozola, Lab Analyst/Environmental Inspector, gave a presentation on how mental health and stress can impact safety. Stress, whether personal causes or at the workplace, can create distracted workers which increases the chance of an injury. Ms. Kalnozola listed some indicators and changes in behavior to help identify stress in a coworker and encouraged everyone to look out for each other.
- August 21: Annual Spill Prevention, Control and Countermeasures (SPCC) Training. S/C Admin Dias gave an annually required training on how to prevent, control and respond to petroleum spills. This is a required training element of the District's County Health Department permits for our bulk petroleum (diesel, gas, lubricants, and solvents [greater than 55 gallons]).

Ongoing Safety Improvements

Maintenance Superintendent Chris Foley and S/C Admin Dias continued to implement safety improvements and seek input from the operations crew and the Safety Committee. Activities in August included:

• Engineering review and planned replacement of wooden footbridge. A wooden footbridge connects the northern-most secondary clarifier and the return activated sludge building. It was noted by a senior maintenance mechanic that the bridge might not be strong enough to support several persons. S/C Admin Dias assessed the bridge, and noted it is visually bowed and flexes even with just one person on it. The issue was referred to the Principal Engineer, Jeff Bandy. While the bridge is safe for two or three people at a time (i.e., typical daily usage) it may not be safe for tours when a dozen or more people might be crossing simultaneously. Mr. Bandy is working with a custom metal fabrication company to construct a metal replacement bridge. In the interim, the tour route will be changed to use a nearby set of stairs instead of using the bridge.

Tours and Outreach

• **Tours**: No tours were requested in August.

Injuries; First Aid Incidents; Workers Compensation Claims

There were no new Workers Comp claims or first aid injuries in August. The most recent matrix is below.

	Worl	Work Related Injuries and Illnesses for 2024 Calendar Year							
ТҮРЕ	New Incidents (Month)	ncidents Incidents from Work Restriction							
OSHA Injuries	0	0	0	33*	0				
OSHA Illnesses	0	0	0	0	0				
Other WC Claims	0	0	0	0	0				
First Aid (non-OSHA)	0	1	0	0	0				

*Excludes holidays, vacation days and sick days

STAFF REPORT

To: Board of Directors

From: Carla James - Laboratory/Environmental Compliance Supervisor

- Date: September 26, 2024
- Subject: Monthly Report August 2024

RECOMMENDATION

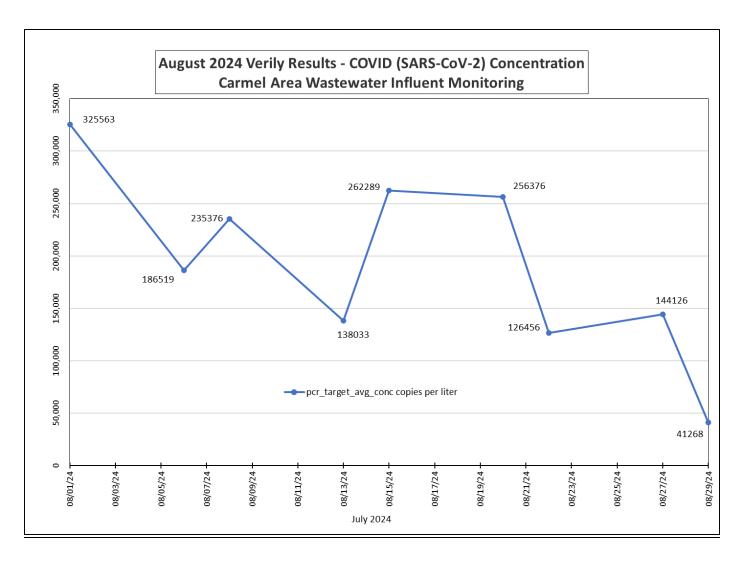

Receive Report - Informational only; No action required.

DISCUSSION

INFLUENT MONITORING (VIRUSES)

- Center for Disease Control (CDC) approved Verily as the official provider for monitoring results. Verily provides SARS-CoV-2 (COVID), Respiratory Syncytial Virus (RSV), Influenza A and B, and Monkey Pox Virus (MPKV) analysis twice per week for Carmel Area Wastewater District (CAWD) Facility Influent composite samples.
- August 2024 COVID data points from Verily are represented in the following graph. The graph shows the copies of pathogen nucleic acid per liter of wastewater for a single collection site over time.
- Influenza A virus and RSV were detected in August 2024.
- Influenza B and MPKV viruses were not detected in August 2024.

LABORATORY REPORT

- On August 27, 2024, Kinnetic Environmental (KEI) programmed a flow-proportioned Final Effluent composite sampler for 30-day monitoring of Persistent Organic Pollutants (POPs) under the Central Coast Long-Term Assessment Environmental Network (CCLEAN) Program.
- On August 27 and 28, 2024, Final Effluent composite samples were collected and submitted to KEI for Pyrethroids, Fipronil, and Neonicotinoid analyses as part of CCLEAN monitoring.

DISCUSSION

Plant Operation

Treatment Plant:

- The treatment plant operations staff has continued finishing projects and concentrating on Preventative Maintenance Work Orders during the month of August.
- August 12, Operations and Maintenance staff started the Aeration Basin number 4 diffuser upgrades.
- August 31, Operations Superintendent and Laboratory Supervisor attended the Monterey County Fair that had a public outreach booth for Carmel Area Wastewater District (CAWD). Staff handed out informational material to fair participants on sewer lateral maintenance, proper disposal of Fats, Oils, and Grease, along with other CAWD information.

Reclamation:

- Staff continued preventative maintenance work on pumps, motors, and any equipment that needs maintenance for the Microfiltration (MF) and Reverse Osmosis Systems (ROS).
- MF cells #1, #2, and #3 were cleaned successfully with Trans Membrane Pressures (TMPs) pressures ranging between 1.8 to 5.5 pounds per square inch (psi).
- RO Train C continues to operate well with the 90 percent recovery pilot target. RO Train A will begin operation at 90 percent recovery starting in September.

<u>Training:</u>

• Staff participated in scheduled tailgate safety meetings in the digester building conference room.

• August 5 through August 9, Operations Superintendent and Operator, Mr. Lopez attended the Tri-State Seminar in Las Vegas for classes on Operations and Regulatory Compliance.

Meetings Attended

- Weekly, Friday meetings with Sean Dingman on the new Mobile Maintenance Management Software. These meetings are designed to fine tune work orders, asset hierarchy, and general program navigation.
- August 8, Operations Superintendent attended a Zoom meeting with the Water Awareness Committee of Monterey County to review the new brochure for the Monterey County Fair Water Conservation Showcase on Saturday the 31 of August.
- August 15, Operations Superintendent attended a Zoom meeting with the Monterey Bay Water Works Association for upcoming training events.
- August 22, Operations Superintended and Operations Supervisor attended a Teams meeting with Trussell Technologies to review Micro Filtration/Reverse Osmosis operational and mechanical activities for the last two months of operations.
- August 26, Operations Superintended and Laboratory Supervisor attended an in person meeting at the CAWD Board room to review Laboratory Operations with the management team.

Discharge Permit Violations

- There were no violations of Reclamation Permit 93-72 for the month of July 2024.
- There were no violations of the National Pollutant Discharge Elimination System (NPDES) Number CA0047996, Order No. R3-2014-0012 within the month of July 2024.
- Submitted Quarterly Reclamation Permit 93-72 for the months of May, June, and July. There were no violations of the Quarterly monitoring report for May thru July 2024.
- Submitted Quarterly May through July 2024 monitoring report. There were no violations of the National Pollutant Discharge Elimination System (NPDES) Number CA0047996, Order No. R3-2014-0012 for the Quarterly February thru April 2024 monitoring report.

DISCUSSION

Maintenance Projects in Progress/Completed

Laboratory Air Conditioning System Issue

During annual preventative maintenance, a problem with the laboratory's air conditioning system was identified. Repair parts were ordered and installed. This unit, having been replaced once before, is approaching the end of its service life due to the harsh coastal environment. A budget request will be submitted for next fiscal year to replace the unit.

Aeration Basin 4 Header Installation

Mathews Mechanical installed new headers in Aeration Basin 4 to reduce the risk of overpressurizing the basin's diffuser system, which can cause individual diffusers to blow off. These diffusers are essential to the aeration process, providing the necessary air bubbles.

California Air Resources Board (CARB) Heavy-Duty Vehicle Inspection and Maintenance

The CARB Heavy-Duty Inspection and Maintenance tests were successfully completed on the Vac-Con and Jet trucks. This new mandate requires the District to monitor all heavy-duty vehicles. District staff have completed certification training and are now equipped to perform the testing in-house and upload the data to CARB.

Information Technology (IT) Intern Network Security Project

The Information Technology Intern is currently developing password manager instructions for staff, aimed at improving network security. The password manager will encrypt passwords and help prevent the use of duplicate passwords, significantly enhancing overall system security.

Upcoming Maintenance Projects

Treatment Plant Breakroom Cosmetic Upgrades

Starting in September, the Treatment Plant breakroom will undergo cosmetic improvements. The existing drywall is deteriorating, and the flooring is worn. The planned upgrades aim to create a clean and comfortable space for staff.

8th & Scenic Pump Station Meter Panel Replacement

(Update 1): We are currently awaiting scheduling from Pacific Gas & Electric (PG&E) to replace the meter panel at the 8th & Scenic pump station. The existing mild steel panel shows signs of corrosion. The new stainless steel panel will reduce the risk of failure to the pump station's electrical service.

Reclamation Variable Frequency Drives (VFD) Replacement

VFDs for controlling the speed of the reverse osmosis and microfiltration pumps have been delivered. The new VFDs will be installed within the existing cabinets, allowing key components such as breakers and filters to remain in place. This approach will reduce both the complexity and cost of the installation while extending the lifespan of the VFDs.

Aeration Blower 211 Maintenance

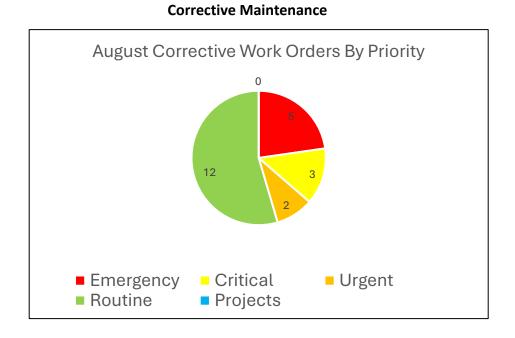

Aeration Blower 211 is experiencing issues with its inlet guide vanes, causing intermittent surging that can damage the blower. Staff are building a history of planned services for these units, considering the impact of the coastal environment. The recommended maintenance schedule has been adjusted to account for local conditions, and a Level 1 minor service will be performed to address corrosion issues.

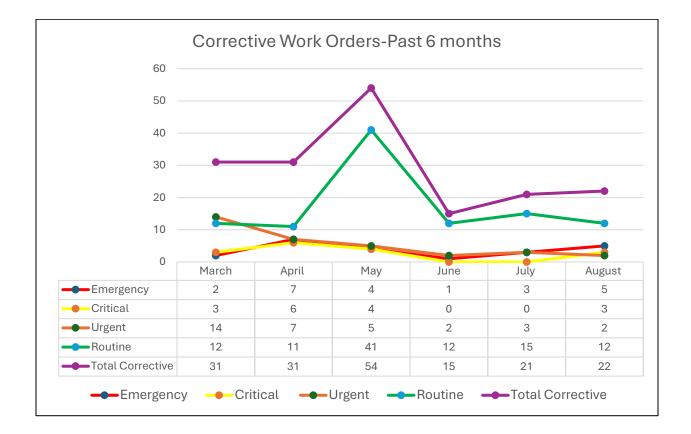

Dissolved Air Flotation Thickener Maintenance

A major service on the bearings of the Dissolved Air Flotation Thickener is scheduled. Factory technicians will oversee the service, with District staff assisting to facilitate knowledge transfer. A job plan has been created, and we are currently awaiting scheduling from the factory.

Subject: Source Control Update

RECOMMENDATION

Receive Report- Informational only; no action required.

DISCUSSION

This report is an update on Source Control activities associated with Fats, Oils, and Grease (FOG) discharge control activities.

Carmel Area Wastewater District (CAWD) conducted drainage fixture surveys at 4 restaurants in the past month. There has been a total of 65 restaurants inspected since the start of 2024 (about 100 restaurants total are in operation in the CAWD service area). CAWD is conducting these surveys as part of information gathering within restaurants subject to CAWD grease control ordinances.

Below are the findings of the last round of inspections:

Restaurant	Fixtures Not	Grease Trap	Unlawful
	Connected to Grease	Undersized	Disposal
	Trap		
Tommys Wok	Yes	No	Yes
Mission Ranch	No	No	Yes
Seventh and Dolores	No	No	No

Resolutions

То:	Board of Directors
From:	Chris Foley, Maintenance Superintendent
Date:	September 26, 2024
Subject:	Purchase of High Flow Effluent Pump Rebuild Parts

NASTEN PARA

RECOMMENDATION

It is recommended that the Board of Directors adopt a resolution authorizing the General Manager to purchase rebuild parts for two Fairbanks Morse effluent pumps in the amount of \$60,000.

DISCUSSION

The effluent pumpstation at the treatment plant utilizes three pumps to move water to the ocean outfall. Two pumps are wet weather high flow pumps that have minimal runtime. The third pump is a low flow pump that pumps reverse osmosis reject water from the reclamation system. The high flow pumps are critical to meet permit requirements in the winter high flow season.

The high flow pumps have been in service since 1972. The pumps still operate but leak water and the pump efficiency has decreased due to wear. These parts would rehabilitate the pumps back to optimal operating specifications and replace components before they completely fail such as the leaking seals.

Staff received a quote from JM Squared, the authorized Fairbanks Morse distributor, for the repair parts. The pumps require specific parts and cannot be substituted with a different manufacturer's parts.

SUMMARY

The effluent pumps have been in operation for decades with no failures. This purchase would extend the life of the pumps by 20-30 years.

Treatment Plant Capital Equipment Budget FY 2024/25- \$60,000

RESOLUTION NO. 2024-53

A RESOLUTION AUTHORIZING THE GENERAL MANAGER TO PURCHASE EFFLUENT PUMP REBUILD PARTS FROM JM SQUARED IN FISCAL YEAR 2024-25 IN AN AMOUNT NOT TO EXCEED \$60,000

-000-

WHEREAS, the District requires the purchase of effluent pump parts to maintain operations of the effluent pump station; and

WHEREAS, the District determined there is no substitute and sole sourced the purchase; and

WHEREAS, the District has determined the effluent pumps are critical assets that require an immediate purchase of rebuild parts to maintain the required level of service for the treatment plant; and

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Carmel Area Wastewater District, which is convinced by the staff report on September 26, 2024, that this proposal has merit and hereby authorizes the General Manager to purchase effluent pump parts for fiscal year 2024-25 in an amount not to exceed \$60,000.

PASSED AND ADOPTED at a regular meeting of the Board of Directors of the Carmel Area Wastewater District duly held on September 26, 2024, by the following vote:

Subject:	Purchase of Two GEM Electric Utility carts

RECOMMENDATION

It is recommended that the Board of Directors adopt a resolution authorizing the General Manager to purchase two GEM electric utility carts from Total Industries in Salinas at the cost of \$46,468.38.

DISCUSSION

The District currently operates three electric utility carts for its operations staff. Two of these carts are over 30 years old and are showing significant signs of wear and corrosion. The mechanical components, including the suspension, steering, and body, are deteriorating and need replacement.

The following criteria were used when selecting new carts for purchase:

- 1. The carts must be electric.
- 2. Availability of local support and parts.
- 3. Ability to tow a trailer.
- 4. Capacity to carry ladders and pumping hoses.
- 5. Lowest cost among qualified options.

After evaluating various options, the **GEM eL XD** was selected as the best solution. Staff conducted pricing research and identified the Sourcewell cooperative pricing agreement for GEM carts, which streamlined the bidding process. Total Industries, a Sourcewell vendor with a branch in Salinas, was selected as the supplier.

A sales representative from Total Industries provided a demo cart for testing. Multiple staff members drove the cart around the plant to ensure it met all operational requirements. The staff reached a consensus that the GEM cart was the best choice for the District's needs.

Subject:	Fiscal Year 2024/25 Artificial Intelligence (AI) Softw Implementation Budget Approval	are and Pilot Project

NASTEWARP

RECOMMENDATION

It is recommended that the Board of Directors adopt a resolution authorizing the General Manager to update the contract with Enterprise Automation for the Fiscal Year (FY)2024/25 in the amount of \$75,000 for a total project budget of \$225,000.

DISCUSSION

The District issued a contract for \$150,000 in FY 2023/24 with Enterprise Automation (EA) to assess the current automation system and to implement improvements to the network and data sharing systems so that artificial intelligence/machine learning could be implemented at the treatment plant.

The AI project includes pre-requisites that not only support AI but improve data reporting for permit and process data.

Identified Improvements: (questions)

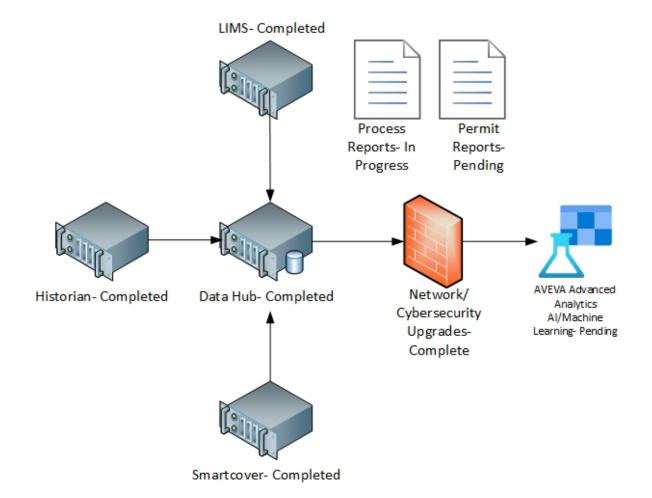

- **Cybersecurity Network Enhancements:** Upgraded the cybersecurity infrastructure to ensure secure data sharing with AI software.
- **Database and Reporting Tool Upgrades:** Enhanced database systems and reporting tools to enable seamless integration with AI software. This involved migrating legacy reporting tools to the new system to ensure consistency between report data and AI data.

• Lab Data Sharing Enhancements: Updated lab data sharing protocols to be compatible with the new reporting tools, thereby improving the permit reporting process.

Project Status:

- Network Upgrades: Completed the implementation of network upgrades, which included a comprehensive audit of the existing system, hardware enhancements, and reconfiguration. Exceedio (CAWD Information Technology Support) played a crucial role in these upgrades.
- Environmental Risk Information Services (eRIS), referred to as a Data Hub Installation: Successfully installed the eRIS server, which is now connected to the Supervisory Control and Data Acquisition (SCADA) Historian Server and the Lab Information Management System (LIMS). Efforts are ongoing to standardize Historian tag descriptions within the eRIS server. The purpose of this information hub is to integrate data silos and provide a robust data reporting platform.
- **Operational Report Integration:** Replicated daily operational reports from the treatment plant into the eRIS system. These process reports are utilized internally to refine and optimize process controls, such as adjusting the wasting rate of the activated sludge process to maintain target water quality.
- **Permit Report Data Review:** Undergoing a review of permit report data to ensure accurate calculations within the eRIS data hub. This will facilitate the generation of permit reports, which are subsequently uploaded to regulatory agencies. This will replace the custom programming that is currently used to calculate reporting data. Custom scripts are challenging to maintain since they are dependent on the one person who programmed the script. Implementing an off the shelf reporting software application is more robust and requires less maintenance.

Figure 1: Schematic of project progress

Budget Summary:

Fiscal year	Budgeted Amount
FY2023/24	\$75,000
FY2024/25	\$150,000
Cumulative Total	\$225,000
Prior Approved	\$150,000
Remaining Budget	\$75,000

FUNDING

Treatment Plant Capital Budget FY 2023/24- \$75,000 Treatment Plant Capital Budget FY 2024/25- \$150,000

RESOLUTION NO. 2024-55

A RESOLUTION AUTHORIZING THE GENERAL MANAGER TO UPDATE THE CONTRACT WITH ENTERPRISE AUTOMATION IN FISCAL YEAR 2024-25 IN AN AMOUNT OF \$75,000.

-000-

WHEREAS, the District requires the expertise of Enterprise Automation to complete the Artificial Intelligence Pilot project; and

WHEREAS, the District reviewed the consulting agreement to ensure accurate project scope and deliverables; and

WHEREAS, the District has determined the Artificial Intelligence Pilot project is critical to the Districts data reporting goals; and

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Carmel Area Wastewater District, which is convinced by the staff report on September 26, 2024, that this proposal has merit and hereby authorizes the General Manager to update the contract with Enterprise Automation for fiscal year 2024-25 in an amount not to exceed \$75,000.

PASSED AND ADOPTED at a regular meeting of the Board of Directors of the Carmel Area Wastewater District duly held on September 26, 2024, by the following vote:

From:	Barbara Buikema, General Manager
Date:	September 26, 2024
Subject:	Designation of Classification Titles and Providing for the Number of Positions and Salary Ranges – Non Represented Employees

RECOMMENDATION

It is recommended that the Board of Directors adopt a resolution designating the amended Classification Titles in the Carmel Area Wastewater District for Non-Represented Employees and providing for the number of positions and monthly salary ranges effective July 1, 2024

DISCUSSION

Effective July 1, 2024 three positions in the management group (Executive Assistant, Maintenance Superintendent, and Lab Supervisor) were updated to reflect the CASA salary survey median. At that time, the Principal Accountant was not considered for an increase because it fell within CASA salary parameters. However, in this case the Principal Accountant position should be reconsidered because it has fallen out of synch with other positions internally. The position is not a precise match to that found in the CASA survey. The Principal Accountant is a licensed Certified Public Accountant - a designation that requires a 5 year course of college level study and satisfactory pass on a rigorous professional exam along with ongoing continuing education. This position should be ranked above both the Operations and Laboratory Supervisor positions.

Additionally, because the three other positions were adjusted effective July 1, 2024 staff is requesting that the Principal Accountant increase be backdated to that same date.

This matter was considered by the Salary & Benefits Committee on September 11, 2024 and recommended for presentation to the full board.

FINANCIAL

Therefore, staff recommends a move from Range 26 to Range 29 for the Principal Accountant position along with an increase from \$9,810.48 - \$11,924.70 to \$10,564.85 - \$12,841.64. Estimated cost of \$916.94/pay period or \$11,003 for the fiscal year.

This salary adjustment was not budgeted and will need to come from General Reserves.

RESOLUTION NO. 2024 - 56 DESIGNATING CLASSIFICATION TITLES IN THE CARMEL AREA WASTEWATER DISTRICT AND PROVIDING FOR THE NUMBER OF POSITIONS AND MONTHLY SALARY RANGES FOR <u>NON-REPRESENTED</u> EMPLOYEES

BE IT RESOLVED by the Board of Directors of the Carmel Area Wastewater District as follows:

Section 1. That the "Positions", "Classification Titles" and "Salary Ranges and Steps" enumerated below are hereby adopted for Non Represented positions of employment in the Carmel Area Wastewater District:

				SAL	ARY STE	EPS	
Positions	Range	Classification Titles	А	В	С	D	Е
		Non Represented Positions					
1	n/a	General Manager	-	-	-	-	19,666.40
1	48	District Engineer	16,889.48	17,733.96	18,620.66	19,551.69	20,529.27
1	40	Principal Engineer	13,861.97	14,555.07	15,282.83	16,046.97	16,849.32
1	34	Operations Superintendent	11,953.14	12,550.80	13,178.34	13,837.26	14,529.12
1	38	Maintenance Superintendent	13,194.04	13,853.74	14,546.43	15,273.75	16,037.44
1	34	Collection System Superintendent	11,953.14	12,550.80	13,178.34	13,837.26	14,529.12
1	29	Principal Accountant	10,564.85	11,093.09	11,647.75	12,230.13	12,841.64
1	28	Operations Supervisor	10,307.16	10,822.52	11,363.64	11,931.83	12,528.42
1	28	Laboratory Supervisor	10,307.17	10,822.53	11,363.65	11,931.84	12,528.43
1	23	Executive Administrative Assistant /Board Clerk	9,110.03	9,565.53	10,043.81	10,546.00	11,073.30
10.0							

Section 2. That salaries paid to occupants of said positions shall be administered in accordance with Ordinance No. 97-2 titled "Personnel Policies".

Section 3. The Provisions hereof shall be in force and effect as of July 1, 2024

Section 4. That this resolution supercedes 2024-35 in its entirety.

General Managers Report

Other Items Before The Board

Staff Report

To: Board of Directors

From: Barbara Buikema, General Manager

Date: September 26, 2024

Subject: Conversion of Newsletter to Email

REQUEST

The Board has requested that the subject of converting the newsletter to email format be agendized for discussion. Staff is asking for further direction.

DISCUSSION

The District does not have access to a master list of email addresses for our constituents. Unfortunately, we are not aware of the existence of such a master list.

We do have the ability to request that customers send us their email address voluntarily and then we would store it. The request can be in the form of a letter to the parcel owner of record (6,814 parcels); or we could advertise in our current newsletter and direct constituents voluntarily to our website where we can have a page devoted to the topic. (We would not disclose emails on the District web site).

The District obtains our postal service mailing list from the Monterey County tax rolls. The County does not maintain email data; however, they do have the postal address for the property tax statements.

If we are able to obtain email address data we would need to manually separate it from the County postal mailing list. While potentially tedious the first time, it should become much easier with subsequent mailings.

One final discussion point: the County is able to keep up with change of ownership when property changes hands. We will lose that if we are dependent on email address data only.

FUNDING

Unknown at this time; however, we are able to estimate some of the costs.

It is possible we could come up with a postcard type request, cost unknown at this time. If we send request letters to all parcel owners the postage would be \$6,951 plus staff time. Mailer estimated at $0.69 \times 6,814 = 4,702$ Envelope estimate at $0.32 \times 6,814 = 2,181$ Copy paper $0.01 \times 6,814 = 68.14$ Staff time – unable to estimate at this time

REQUEST

The Board has requested that the Independent Accountant's Letter be "modified" regarding a specific statement in the monthly letter, based on the services performed, by CLA to the District. Staff is seeking further direction based on the reply from CLA and the Practitioner's Agreed-Upon Procedures Report guidance that CLA follows.

DISCUSSION

The Board has questioned whether the verbiage at the end of the CLA Independent Accountant Letter can be trimmed out and if it meets the District's legal responsibilities. Specifically, the final paragraph seen in each monthly letter reads:

"This report is intended solely for the information and use of the Board of Directors of Carmel Area Wastewater District and is not intended to be and should not be used by anyone other than the specified parties".

CLA informs that unless we change the engagement from "Agreed Upon Procedures" to a general consulting engagement they cannot make the requested change. The report language for Agreed Upon Procedures is strict. Note that the final line does read "should not be used;" however, if CAWD chooses to share with others that is our choice.

The Agreement Upon Procedures uses very specific language that cannot be altered. The paragraph in question should follow this rule:

- a. State that the practitioner's report is intended solely for the information and use of the specified parties.
- b. Identify the specified parties for whom use is intended.
- c. State that the report is not intended to be, and should not be, used by anyone other than the specified parties.

CLA's monthly letter to CAWD follows this requirement closely.

The District's agreement with CLA, is an agreed-upon procedures engagement also known as an attestation engagement in which a practitioner performs specific procedures on subject matter and reports the findings without providing an opinion or conclusion. The attestation engagement is a type of audit where a third party provides an opinion on assertions made by management in the company's financial statements. Attestation engagements are seen as best practices for companies to ensure that their financial statements are accurate and reliable. Were the District to switch to a general consulting engagement we would negate the purpose of the audit – a review of whether there were differences in the District's recorded cash disbursements and recorded cash receipts.

RECOMMENDATION

Action required - requesting acceptance of report.

DISCUSSION

The U.S. economy was characterized by several key trends. Economic growth moderated after two quarters of exceptional strength. Recent inflation data shows a return towards the Federal Reserves' 2% target. The labor market remains robust despite a modest increase in unemployment. Consumer spending is resilient supported by wage growth that is outpacing inflation.

The Federal Reserve moved aggressively Wednesday (9-18-24) to cut interest rates 0.5%. Reports indicate that another half a percentage point drop is expected this year and an additional full point next year. The rate cut on Wednesday comes as the annual inflation rate has fallen to 2.5% last month from a peak of 9.1% in June 2022. At the same time, job growth has slowed and the unemployment rate has inched up to 4.2%, leaving Fed officials worried that high interest rates could become a drag on the economy. As of the writing of this report.

On June 30, 2024, the County of Monterey investment portfolio contained an amortized book value of \$3,357,906,886 spread among 310 separate securities and funds. The par value of those funds was \$3,397,732,035 with a market value of \$3,336,530,534 or 99% of amortized book value. The portfolio's net-earned income yield for the period was 4.13%. The portfolio produced an estimated quarterly income of \$34,986,456 that will be distributed proportionally to all agencies participating in the investment pool. The investment portfolio had a weighted average maturity of 408 days. The County Treasury continues to utilize shorter term debt to provide portfolio liquidity and enhanced investment opportunities in the current market environment.

PORTFOLIO CHARACTERISTICS				
	12-31-23	03-31-24	06-30-24	
Total Assets	\$3,275,888,842	\$3,260,434,400	\$3,397,732,035	
Market Value	\$3,210,378,916	\$3,195,541,575	\$3,336,530,534	
Days to	398	392	408	
Maturity				
Yield	3.54%	3.83%	4.13%	
Estimated	\$26,882,589	\$29,954,216	\$34,986,456	
Earnings				

The Monterey County Treasurer's portfolio consists of fixed income investments, all of which are authorized by the State of California Government Code §53601.

Portfolio Asset Composition 06-30-24		
Corporate Notes	20.9%	
Overnight Liquid Assets	21.0%	
US Treasuries	34.2%	
Federal Agencies	11.8%	
Commercial Paper	6.6%	
Negotiable CDs	5.0%	
Supranationals	0.5%	
Municipal Bonds	<0.1%	
Asset Backed Securities	<0.1%	

Future Strategy: The Treasury continues to strategically invest matured assets while accounting for potential liquidity needs. Opportunities are actively evaluated to safely add value to the County's portfolio while maintaining a strong sense of safety and risk management.

The investment portfolio was in compliance with all applicable provisions of state law and the adopted Investment Policy contained sufficient liquidity to meet all projected outflows over the next six months.

Note: the Monterey County Treasurer Report is available on the Monterey County Treasury <u>website</u>.

Subject: Carmel Lagoon Update

RECOMMENDATION

Informational Only

DISCUSSION

On September 10, 2024, the Monterey County Board of Supervisors adopted a resolution to (a) Certify the Final Environmental Impact Report/Environmental Assessment for the Carmel Lagoon Scenic Road Protective Structure, Ecosystem Protection Barrier (EPB), and Interim Sandbar Management Plan. (b) Select the Scenic Road Protective Structure at the Mid Slope Wall and Sandbar Management Plan, with the potential for individual garden walls along the property lines and the potential long-term solution to the Sandbar Management Plan being a Home Elevation Program as the preferred project.

The primary objective of the Carmel Lagoon Project is to implement a solution to improve the functions and values of the ecosystem in and around the Lagoon by restoring the Lagoon's historic hydrologic, pre-management conditions to the extent feasible to protect habitat for fish and wildlife while maintaining flood protection.

County staff recommended that the Board of Supervisors avoid solutions that require construction of structures that hold back or direct water, as such structural solutions are expensive, have the potential to fail over time, have environmental impacts, and benefit less than 30 private properties and Carmel Area Wastewater District (CAWD) infrastructure. Though an EPB would allow the lagoon to rise to an elevation over 15 feet without flooding residences and structures adjacent to the lagoon, it would require significant construction and infrastructure maintenance, an ongoing maintenance access deed across the adjoining properties, and include aesthetic impacts to the natural view of the lagoon, and would require the ongoing running of water pump systems to remove water from the landward side of the wall thus including significant noise impacts.

Staff recommended that the sandbar management continue while a home elevation program is explored. Additional study and coordination with CAWD will be required as the County recognizes the treatment plant could be impacted by rising lagoon levels without an EPB or sandbar management.

In recommending exploration of a home elevation program, the County would also examine protection or relocation of CAWD pipelines. Note that CAWD may not be able to service lines that run underwater.

The anticipated cost of the Scenic Road Protection Structure wall alternative is approximately \$7.2M as estimated by Balance Hydrologics in 2023. Home elevation estimates are approximately \$230K per home as estimated in 2015. Potential sources of grant funds for home elevation programs include Federal Emergency Management Agency (FEMA), which requires that residents contribute 25% of costs with FEMA funding the remaining 75% with federal funds. A Prop 218 assessment on the benefiting property owners could provide the resources to support the local match.
